One Man's Opinion

By CARL BRIGGS

With something like four weeks left before the general election, it becomes more and more apparent that the American voter is unhappy with the choice he has and his frustration is producing strange symptoms, not the least of which are frequent wild-eyed and somewhat hysterical declarations from otherwise rational people that they intend to vote for George Wallace. That such extreme and desperate measures are even considered is an intensely interesting commentary on the current condition of our national political wherewithal.

Things aren't much better in California where voters are not only given a probable Republican president they didn't even want for Governor, but a senatorial choice between two not very attractive extremists. I trust that even within the Shirley Temple wing of California Republicans there is a measure of remorse over casting aside good, gray Tommy Kuchel. He may be a moderate or a progressive or something else distasteful to the conservative Republican, but he's a hell of a lot better than what we have to choose from now.

Things are a little better on the state level, where we are blessed with good men who somehow managed to survive the primary in this year of change, and several hard-charging challengers that are giving the incumbents a sleepless night now and then. They are good for the political soul.

Locally, it's all up for grabs. The incumbent was ousted in Truckee and there remains a choice between two widely dissimilar and untried men. It's a matter of groping in the dark for the one whom we feel, after all the shouting is over, is the best qualified man for the job. That's what is really all boils down to in any contest.

In Placer County, the choice is equally frustrating, but for a different reason. Because of redistricting, two seasoned and proven incumbents are running against each other for a single seat. This odd and quite gentlemanly stalemate is further complicated by a determined little Irish write-in candidate who has challenged the entire electorate to make what he considers a badly needed change.

Reading the various propositions before each election usually produces a great deal of muttering and head-shaking, and this year is no exception.

Some of the maddest schemes in our political history have been incubated and hatched in the steamy and debilitating swamps of Los Angeles, and Proposition 9 ranks with the best of them. Proposition 1-A provides the sensible means for property tax relief without bankrupting the state, as 9 is likely to do, but by some strange circumstance either 1-A or 9 will be the law of the land. Whichever of these two propositions gets the most votes is the winner. A majority is not needed. I don't understand the mechanics involved here, but voting no on 9 probably won't help unless you vote yes on 1-A. Voting no on both or voting yes on both merely neutralizes your ballot and your vote is wasted, so all you people who usually vote no on everything please take note.

There are district elections too, coinciding with the general election, and the various districts are vital to our local welfare and not to be taken lightly.

All in all, the ballot promises to be as gigantic in size as it is important in content. Somehow, our system keeps working and no matter how bad things look before an election they usually come out all right in the long run. This is fortunate, because I can't remember any time in my own short history when things looked any worse than they do right now.

Three Area Fires During Week

A roaring fire of unknown origin shortly after 2 p.m. Thursday completely destroyed the Mountain Shop, a ski shop and restaurant owned by Mr.

and Mrs. Eli Carder, on Soda Springs-Baker Ranch Road in Soda Springs.

Flames fanned by an afternoon breeze quickly jumped across the road to Lee & June's

Ski Shop, owned by Soda Springs Ski Corp., causing extensive damage to one building and partially burning two walls and the

roof of another.

Prompt action by several work crews in the area contained the flames until fire units arrived. Cooperating in battling the blaze were men from the Placer County Road Department, Southern Pacific Railroad, Pacific Gas & Electric Co., and the U.S. Forest Service.

Trucks from the Truckee and Donner Lake Volunteer Fire Departments, under the direction of fire marshal Reuben Maki, soon arrived on the scene and it was largely through their efforts that Lee & June's Ski Shop was saved from total destruction.

An unofficial estimate of loss to the Mountain Shop was set at close to \$100,000.

In other fires during the week, a house belonging to Aaron Rucker burned to the ground in a spectacular blaze early Friday morning, and Monday afternoon a grass fire in Squaw Valley was battled by 22 men from the volunteer fire department, the State Department of Parks and Recreation, and the U.S. Forest Service. The fire was reportedly electrical in origin and burned a half acre under the gondola cable about a quarter of a mile up-slope from Squaw Valley Lodge.

Squaw Valley Fire Chief Bob Butler coordinated the fire-fighting effort.

Guilty Of Improper Tax Return

Robert A. Reuckheim of Tahoe Vista, a ceramic tile contractor, pleaded guilty to violation of Section 2106 of the California Unemployment Insurance Code, having failed to file quarterly payroll tax returns with the Department of Employment.

He appeared before Judge Robert Fugazi in Tahoe Judicial Court, Tahoe City, on Oct. 1 and was fined \$100, which was suspended on condition of one year probation and full compliance with the rules of the Department of Employment.

Failure to file returns when due is a misdemeanor and disregard of this requirement is punishable by law, according to Scot C. Harrington, auditor in charge of the Placerville Employment Tax District office.

Harrington said this is part of the continuing program of the department to assure that all unemployment reports and taxes due the state are filed and paid within the time limits prescribed by law.

DONNER SUMMIT FIRE — The Mountain Shop and two buildings belonging to Soda Springs Ski Corp. were gutted by flames Thursday afternoon despite a cooperative fire-fighting effort by men from Placer County Road Department, U. S. Forest Service, Southern Pacific Railroad, and volunteer units from Truckee and Donner Lake. — Sun Photo

Baby Girl Is Saved From Creek By Mother

A dramatic rescue of a drowning two-year-old girl was effected by the child's mother, Mrs. Sharon Farrar, 25, manager of Manzo's Alpine Motel, just east of Donner Lake, Tuesday evening.

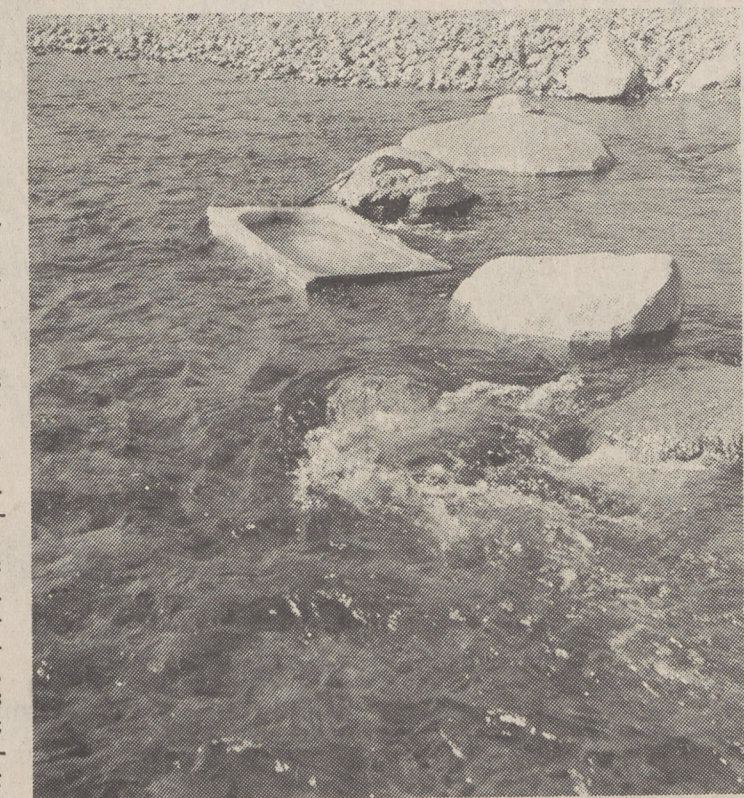

The little girl, Cheryl, playing with other children along the bank of Donner Creek, accidentally fell into the water and was instantly washed down stream, rolling and tumbling in the swift current. The other children notified Mrs. Farrar and she plunged into the stream, following the icy current in a frantic search for the child, groping and feeling her way in the cloudy water.

Nearly a third of a mile below where she entered the creek, she discovered the baby wedged under a discarded and submerged bathtub which had been dumped

into the stream. She managed to pull the child from under the heavy iron tub and run with the little girl in her arms to a nearby work project where she and her daughter were placed in a pickup truck and rushed to Tahoe Forest Hospital in Truckee. During the trip Mrs. Farrar applied artificial respiration and Dr. Edmund E. Wilkins took over the instant she arrived at the hospital.

The baby had stopped breathing but the mother was told that her efforts to save the child had favorable results and although still in a serious condition, it is believed the baby is out of danger.

Mrs. Farrar is the wife of Lane Farrar and daughter of Mr. and Mrs. Art Dollar of Truckee.

ALMOST A DEATH TRAP — Mrs. Sharon Farrar found her baby girl wedged under this old iron bathtub in Donner Creek Tuesday following a frantic chase and search after the child fell into the icy and turbulent waters. The two-year-old baby had stopped breathing, but her mother applied artificial respiration as they were rushed to the hospital by a nearby construction crew and it was believed the child would survive. — Sun Photo

Call Special Park Meeting

A special meeting of the Truckee-Donner Recreation and Park District board of directors will be held tomorrow night, Thursday October 10 at 8 p.m., in the courtroom of the Nevada County government building in Gateway.

The meeting was called to award bids on the Donner Lake Boat Ramp and for discussion of the proposed horse men's arena at the new regional park. Three bids for the boat ramp have been received, ranging from \$10,300 to \$13,000.

Seven Arrests For Narcotics

Seven arrests on narcotics charges were made last week by sheriffs at the Placer County Sheriff's Substation.

Robert Alan Bollinger, 22, and Jack Richard Flading, 20, both of Kings Beach were arrested on investigation of possession of narcotics.

Michele Yvette Ford, 21, of Tahoe City was arrested on investigation of sale of dangerous drugs.

Arrested for investigation of being present where narcotics were in use were: John Richard Carnell, 19, Tahoe City; Maynard Donn Kaminsky, 22, Tahoe City; Catherine Elizabeth Young, 20, Concord, Calif. and Pamela Jean Harris, 19, Tahoe City.

"IT WAS ALREADY GONE . . ." — Fire totally destroyed the Aaron Rucker residence at the bottom of Dollar Hill last Friday morning. The house was unoccupied at the time of the fire. Estimated loss was \$20,000. The fire also did considerable damage to the Macaulley residence next door but occupants awoke in time to escape without injury. Fire Chief Albert M. Henry, Jr. said three trucks from the Tahoe City Fire Department responded to the 3:49 a.m. call as well as one truck from Kings Beach and Forest Service fire equipment. Chief Henry said the house was a total loss by the time equipment reached the scene. He said cause of the fire is still under investigation. A tenant, Bob Davis, had just moved out the afternoon before the fire. — Gary Henry Photo

Brownie Girl Scout Meeting

A mother-daughter meeting of Brownie Girl Scout troops will be held tomorrow Oct. 10, at the Truckee Fire House after school. Mrs. Oliver Crose is leader of Brownie Troop 74 with Mrs. Earl Smith Jr. and Mrs. Jack deRyk, coleaders. Second and third grade girls are eligible.

Junior Girl Scout Troop 116 will meet Tuesday, Oct. 15 after school in the elementary school library. Mrs. Jim Smith is leader with Mrs. Crose, assistant.

Mrs. Ray Wiser, and Mrs. Joe Money, leaders for Cadette Girl Scout Troop 62, announced regular meetings will commence in the near future.

Announced was a new leader, Mrs. Gordon Kady, for Girl Scout Troop 101. Mrs. Dave Mohla and Mrs. Nick Sas-sarini are assistants.

Candy Sale

Hope Assembly, International Order of Rainbow for Girls, Truckee, will hold their annual "Candy for Funds" sale from October 15 to December 15. Money raised from the sale helps to finance such projects as the annual publication "Rainbow Trail," the grand assembly, university scholarships, and community projects and charity efforts.

Fire-Ettes Annual Ball October 19

The Fire-ettes, Auxiliary of the Truckee Fire District, will be holding their annual fall dance at Donner Lake Lodge October 19.

This year a buffet dinner will be served from 6 to 9 p.m. with dancing to Dick Small's 4 piece band from 9 to 1 a.m.

A valuable door prize, a twelve piece set of stainless steel flatware will be given away. It is not necessary to attend to win. The set is being displayed at the Bank of America.

Everyone is invited to attend. Tickets are \$3.50 per person and proceeds will be used to help the firemen purchase equipment not provided by the district. Marilyn Marquette of Donner Lake is chairman.

Successful Buck Stew

The annual Buck Stew prepared each year for the Truckee-Donner Lake community by the Truckee Outdoor Sportsmen was held Sunday in the downtown parking lot.

An estimated 400 persons attended the afternoon affair, partaking of a delicious stew ably prepared by Lola and Bob Decker, Dorothy Waters and Donald Brown. Thanks was given by the Sportsmen to everyone who helped make the yearly event possible.

Highlight of the day was the presentation to Mike Kumle, of Truckee, of a new Browning rifle.

SEASON'S END — A "final party" was held at Sunnyside Lodge Friday in honor of Placer County Supervisor and Mrs. William Briner, right; Mr. and Mrs. William McCreary, left, were in charge of the committee which organized the affair; among some 250 guests were Mr. and Mrs. Joseph Joynt of Tahoe City. — Sun Photo

The Candidates Corner:

Rose Sees Employment, Economy Improving

"The supervisor can do a great deal to increase employment and expand the economy in our area," Nevada County supervisorial candidate Zeph Rose said in a campaign statement earlier this week. "Using a well thought-out and organized system, there are many avenues available to your supervisor to bring this about."

The statement was made by Rose in answer to questions posed by the Sierra Sun regarding several key election issues. The Sun invited all candidates in Nevada and Placer Counties to submit campaign statements during the month of October. "I feel certain that county, state, and federal funds can be obtained to (a) establish a major visitor's information and rest center in our area; (b) funds are available for beautification purposes; (c) the OEDP and EDA will help any community with high unemployment obtain grants for projects that create jobs. It is interesting to note that Nevada County has the highest unemployment rate and the highest priority in the state," Rose said.

"If I am elected, a part of my efforts will be directed toward encouraging our citizens to have pride in their homes and businesses and the community, to encourage the expansion of business and industry, to use proven methods of attracting new business and industry to our area, and to strive for more efficient and progressive operation of our district," Rose pointed out that the adoption of progressive policies in the district will help to attract new business and will aid older resident businesses as well.

"The good, capable people

are already here, right here in this community," Rose stated. "The supervisor is in a position to activate programs that will benefit local business, and I believe that I can furnish the leadership that will bring this about."

Duff Hits At Welfare Costs

"No one would deny anyone the necessities of life. Unfortunately it is becoming more difficult with each passing day to discuss the issue in an objective manner because more people in government service and private life are dependent upon it for their jobs or as a supplement to their businesses. The poor are becoming a by-product of the system rather than the reason for its existence," Douglas Duff, Placer County Supervisorial write-in candidate said early this week.

"Placer County this year will supervise the distribution of some 5.5 million dollars in welfare funds. This is more money than the board of supervisors collect under the general tax rate on your home or business. Since approximately 4/5 of this amount are federal and state funds, we have in turn accepted their standards for its administration and distribution. Because of this 'free money' we find that the standards set for us to follow allow it to increase from .5 million to .75 million dollars in Placer County each year," Duff stated.

"The New Republic reports that the Department of Health, Education and Welfare intends to double the welfare rolls in the country within the next decade. I believe it will take less time if present policies are continued."

"Recently a large Los Angeles law firm's representative journeyed to Washington, D. C., and secured a large federal grant, returned home, hired several young attorneys and sent them into several counties of California. One of their major roles was to see to it that people were told 'their rights' and put on welfare," Duff said.

"It is an economic fact that thousands of marginal workers on minimum salaries are better off on the welfare rolls than medical, dental, and educational (including college) expenses are 'free.' I must continually remind myself that the poor are not the culprits, but are being exploited by government agencies and even some business men. As one businessman told me, 'Those welfare checks are backed up by the government.'"

"As you can see, so many agencies and people are becoming involved that it will become impossible for anyone to reform the program as it now stands. Political suicide will face any reformer," according to Duff. "I charge that the two pre-

sent incumbents, Mr. Paoli and Mr. Briner, have accepted Placer County's role, which is Particeps Criminis, in the federal and state welfare programs," Duff said. "Our passive role in this program is submissive as well, just one more step in making our local government arm impotent — think it over."

Probe Sought

SEATTLE — Sen. Warren G. Magnuson, D-Wash., says service on Air West routes has seriously deteriorated and the Civil Aeronautics Board should do something about it.

In a letter to CAB Chairman John H. Crocker, the senator asked him to study the situation and take remedial action. He said rates have been increased while service has gotten worse.

The airline was created in mid-summer by the merger of West Coast, Bonanza and Pacific airlines.

Attend Seminar

Harriet Washburn and Roy Baker, Truckee school teachers, represented the Truckee-Donner Historical Society at the 17th annual Northern California Symposium Conference of the California Historical Societies in Davis October 4, 5 and 6. They were accompanied by Fred Whitteale of Melbourne, Australia, who is currently a guest of Roy Baker at Donner Lake.

DEDICATION CEREMONY — George Meyers, Masonic Lodge Grand Master, and Lawrence Gafney, V. R. Grand Marshall, stand beside the cornerstone at the Incline High School dedication ceremony Sunday.

Ceremony At New Incline High

Some 300 persons attended formal dedication rites and cornerstone ceremonies last Sunday at Incline High School. An open house and a reception followed the 1:30 p.m. rites conducted by the Grand Lodge Free and Accepted Masons of the State of Nevada.

Calvin J. Dodson, grand Orator F&AM, noted the tremendous growth and beauty of the Incline area in the principle address of the ceremony. Edward L. Pine, president Washoe County School District Board of Trustees, gave a welcoming speech.

Officiating masons included George T. Myers, grand master; Grover W. Russell, grand chaplain; Calvin J. Dodson, grand orator; Silas Ross, P.G.M., coordinator of ceremonies; Robert A. Drake, past master — aide and Frank E. Brownson, past potentate-aide.

Also participating were the Kerak Temple Legion of Honor, Temple units and divan, members of DeMolay, DeWitt Clinton Commandery No. 1, Scottish Rite Masons, Knights Commander of the Court of Honor and the Kerak Temple Guard. Incline High School PTA President Mrs. Dorothy Smith was among lake dignitaries honored to assist in laying the cornerstone.

Among distinguished guests Mrs. H. Elizabeth Lenz, and Ernest Johnson of the school board, Ted Jacobsen, general contractor for the facility; Edward S. Parsons, architect, and Glenn Hare, administrative assistant in charge of planning and construction with the Washoe County School District administrative staff.

All attending were invited to tour the school facility and participated in refreshments during a reception following formal ceremonies.

Here's Riley

By ERNIE RILEY
Birdwatching and photography have long been rewarding and harmless hobbies for many people, young and old. Comes now Norman B. Livermore, California resources secretary in the San Francisco Chronicle on October 4, who would levee a tax or charge a fee for those who enjoy this form of outdoor life.

We're well aware that the day is coming when everything will be taxed or have a fee attached, but I wonder if Mr. Livermore realized the impact in this case.

Think of the millions of black market pictures and postcards that would soon be in circulation and the under-the-counter trade in hot photos of perhaps a pretty robin or a saucy blue-jay.

Think also of the headlines such as, "Kid Caught With Kodak," or "Chickadee Arrested As An Accessor After The Fact."

Perhaps Mr. Livermore should think this over carefully lest he incur the wrath of millions of shutter-bugs.

While working at Knotts Berry Farm some years ago, we were able to acquire four Pea Hen eggs. Living at that time in an apartment in Long Beach, we were unable to help these eggs through their life cycle, but the child bride's mother had a ranch in Napa Valley and offered to care for the eggs.

Edith gave them a mother's loving care. They were set in a warm, lined box under her bed and turned and dampened when needed. After the usual setting period, two of the four eggs hatched. Their foster mother was delighted. Perhaps we would not have a Pea Cock or Pea Hen on the farm. As the chicks grew, they wandered around the house getting into everyone's way. They adorned their foster mother and followed her wherever she went. When they were a few weeks old, they began to take on a shape that didn't look like a Pea Cock what with their yellow down and web feet. They also started to quack a little. Sure enough, the Pea Hen eggs, when hatched, turned into white ducks. Edith named them Daisy Mae and Little Abner.

Daisy Mae grew up to be a very well behaved duck and raised several families of her own. But after all the loving care Edith had shown him, Little Abner would chase her all over the ranch, nipping at her heels and trying to prove to her who was boss of the farm. Daisy Mae and Little Abner have now gone to their reward, and Mother Edith is leaving egg-hatching to the ones who lay them. So be it.

BEER—A big boost to the economy!

The brewing industry each year contributes over 1.4 billion dollars in federal, state and local excise taxes. Wages and salaries in the brewing industry account for almost 500 million dollars, and the purchase of packaging materials from other industries runs over 550 million. So next time you enjoy a cool, refreshing brew after hard work or play, remember—BEER is good in more ways than one!

UNITED STATES BREWERS ASSOCIATION, INC.

WALTER M. BARRETT

The country this week is observing Fire Prevention Week and it is hoped that this community will take part by making every effort to remove all fire hazards from homes and businesses. Fires, as those who have experienced them will testify, can be most disastrous and costly and often tragic.

Just an inspection of wiring, heating and other possible places for fires to start may prevent a tragic loss. If there is any doubt at all, make replacements.

Another cause of serious fires is neglect of accumulated rubbish. Get rid of it now before winter really sets in and by all means check furnaces, stoves and fireplaces and be sure they are in working condition and not offering a good place for a midnight or early morning fire to start.

With the general election less than a month away, it's time for voters of this district to give serious thought to their choice of candidates for public office.

Of special interest is the selection of a supervisor, a man upon whom the district depends almost entirely for its future welfare. In our opinion, the best qualified man for the job was eliminated at the primary, but that's water under the bridge and now we are faced with the choice of two good men seeking the post.

It is incumbent upon the part of the voters to give careful thought to which will best serve our interests. Both are well known and we believe qualified and capable, but only one will represent us during the next four years and it is up to the voters to study the issues, discuss them with the candidates and arrive at a practical answer.

Trem Talk

By BETTY SHIVELY
The past week has been like the lull before the storm. The week of October 14 is the beginning of Spirit Week! This annual event always precedes Homecoming. (Contrary to last week's announcement, Homecoming is October 19) The football game will be played against the Lincoln Zebras. During Spirit Week, each class decorates its hall in some symbolic decor which expresses the classes school spirit. This is class competition.

The football game Saturday, the 12th, is a contest between TNT and the Del Oro Eagles. Come one, come all to see the feathers fly!

Our champion ski team is forming again. Also Mr. Brehler is organizing the golf team.

The first convention of the school year was attended by the Junior Statesmen. This convention was held at Roseville. The 47 students left early Saturday morning. The meeting lasted most of the day, but the highlight of the trip was the banquet and dance held in the evening.

Last Tuesday three former inmates of Folsom prison were speakers at a school assembly.

Chamber Pot-Shots:

By BETTY LAYTON
The October board of directors meeting of North Lake Tahoe Chamber of Commerce will be Wednesday noon, October 16, at Schubert's Restaurant in Kings Beach. Reports on the San Francisco and Los Angeles Ski Shows will be given as well as other business. All chamber members and guests are welcome.

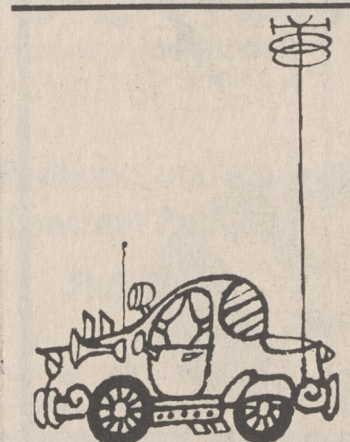

Nancy Williams has been a committee of one to work for the chamber in sending letters for donations for the 8th annual popular dog sled races. This year they will be held in the meadow at Squaw Valley and will be clearly visible, which will make it more interesting for the spectators.

To date we have received donations from realtors Stan Annin and Bob Garrow; and from Alpine Meadows Ski Resort. They will also have ads listed in our Winter Carnival Program. In order to avoid the last minute rush, please subscribe to an ad and make a contribution now.

Welcome to new members for the week: Tahoe City Norge and to new owner John Donning of Tahoe Drug in Tahoe City.

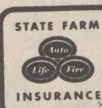

Pear Poppy Seed

Alternate crosswise slices of fresh California Bartlett pear halves, half-rings of green pepper and onion on beds of butter lettuce; sprinkle lightly with poppy seeds and pass shakers of vinegar and salad oil at the table.

First Aid

A Standard First Aid class will be conducted, starting Thursday, Oct. 24 at 7 p.m. at the Tahoe Truckee High School with John Guthrie of the U.S. Forest Service at Big Bend as the instructor. The classes will be under the auspices of the American Red Cross.

Seniors: What are you going to will to TNT?

The Block T organized for the coming year. Curt Wurst was elected president. Block T members are joining forces with the GAA girls to put on the Homecoming events.

A nominal charge will be made for the required book and the classes are open to the public. They will be conducted for five consecutive Thursdays.

Anyone interested is asked to call 587-3113 or Guthrie at the Big Bend station, 426-3609.

Susan Hawkins Receives National Scholarship Letter Of Commendation

A letter of commendation honoring her for her high performance on the 1968 National Merit Scholarship Qualifying Test (NMQST) has been awarded to a student at Tahoe-Truckee High School, principal Harold Drummond has announced.

The student named is Susan R. Hawkins of Kings Beach, daughter of Mr. and Mrs. Douglas Hawkins.

She is among 39,000 students in the United States who scored in the upper 2 percent of those who will graduate from high school in 1969. The Commended students rank just below the

15,000 Semifinalists announced in September by the National Merit Scholarship Corporation (NMSC).

John M. Stalaker, president of NMSC, said: "Although Commended students advance no further in the merit scholarship competitions, their outstanding record in a nationwide program deserves public recognition. Their significant academic attainment gives promise of continued success in college."

"The Commended students should be encouraged to pursue their education since their intellectual talent represents an

important and much needed natural resource. Our nation will benefit from their continuing educational development."

The Commended students' names are reported to other scholarship-granting agencies and to the colleges they named as their first and second choices when they took the NMQST

in February 1968. The reports include home addresses, test scores, and anticipated college majors and career intentions of

the Commended students. NMSC encourages these students to make every effort to continue their education.

News From Floriston

A recent dispatch from Floriston lists two new families in the community: Mr. and Mrs. Dan Goshal, and son; Mrs. Helen Guteriz, and son.

Curtis Funk is home after a three-year tour of duty with the Navy in Vietnam, having served on the USS Henderson, the USS Sterett, and the USS Jouette. He celebrated his 21st birthday the day before his release from the service.

Bill Noah has returned home from Vietnam with a case of Malaria after serving 13 months in Asia. After a short leave for rest and recuperation, he will finish his tour of duty at Camp Pendleton with the Marine Corps.

There will be a meeting of the volunteer fire department at 8 p.m. on October 29 at the Sligars.

Kings Beach Boy Cited

A 15-year-old Kings Beach boy has been cited by Placer County deputies for false threat of a bomb in an occupied building. The youngster is believed to be the one responsible for the "bomb scare" at Truckee High School.

Deputies said investigation is continuing in the case and it is believed the youngster had an adult accomplice who has since left the area.

Candidate Roundup At Ponderosa

Politics and barbecue sauce blended Saturday night as Nevada Republican candidates, headed by Lt. Gov. Ed Fike, attended a meet-the-candidates rally at the Ponderosa Ranch at Incline Village.

The event, sponsored by the Republican Women's Club of Crystal Bay and Incline Village, was held at the Ponderosa Ranch and drew more than 300 persons.

On hand to meet their supporters were Fike, candidate for the United States Senate; Jim Slattery, running for the U.S. House of Representatives; and state senate candidates Len Harris, Cliff Young and Jack Brian.

State assembly hopefuls at the candidate round-up were C.W. "Corky" Lingenfelter, Howard McKissick, Jr., Roy Torvinen, Mary Frazzini, Bart Schouweiler, Jim Wood, Tom Kean, Randy Capurro and Mack Fry. Public administrator candidate C.M. "Shorty" Loer also attended.

Fike told his supporters he felt "the chances of winning in November were excellent."

"It is because of the great number of volunteers in the campaign effort such as is demonstrated by the showing tonight that we will win," he said.

FOR UNIVERSITY REGENT — Mr. and Mrs. Hewitt C. Wells were on hand for the Ponderosa rally; Wells is candidate for the board of regents of the University of Nevada, is a Summa Cum Laude graduate in architecture from Princeton, maintains his own business in Reno. —Sun Photo

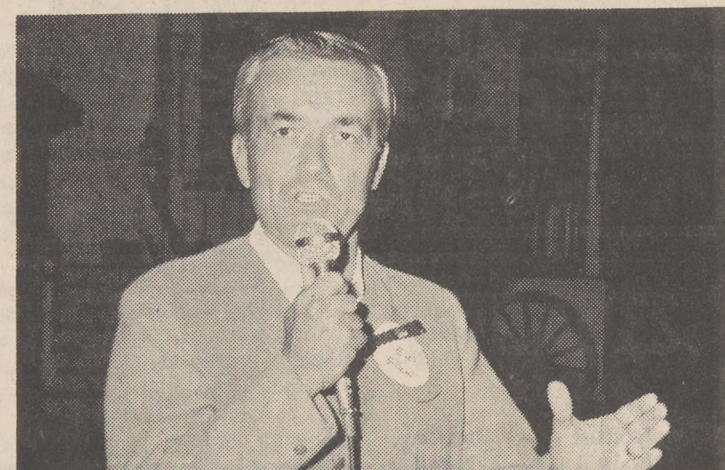

COLORFUL COWBOY — C. M. (Shorty) Loer is candidate for Public Administrator; Loer was one of a score of political aspirants present at the Ponderosa Ranch rally Saturday night. —Sun Photo

Boys Apprehended

Two 12-year-old boys have been cited by Placer County Sheriff's office for the burglary Sept. 29 of Western Auto Store at Kings Beach.

Missing in the burglary was \$200 worth of property including a 30-30 Winchester rifle.

ROUNDUP AT THE PONDEROSA — Nevada Lt. Governor Ed Fike, Republican candidate for senator opposing incumbent Alan Bible, addressed a big GOP barbecue at the Ponderosa Ranch in Incline Village Saturday night, emphasizing the need for party unity and a strong effort to get out the maximum Republican vote in November; partisans enjoyed a real western pit barbecue and pep talks by statewide GOP office-seekers. —Sun Photo

By BETHEL

Missy Eng no longer Steward-ess. Last Hong Kong trip too much for Missy Eng. So Missy Eng, retire Las Vegas more quiet life. Friends no believe Missy Eng lead more quiet life — Las Vegas? So, Jetta Steward, former Missy Eng, retiring Steward-ess career. Chuk bok hamnida, Missy Eng, now Steward-less. Translation: Jetta Steward, longtime Northshore, just returned from a trip to the Orient aboard the U.S.S. President Cleveland. After a quick side trip to Tahoe and Reno, Jetta continued to Las Vegas where she has resided the past couple of years. While with the steamship line Jetta used her maiden name of Eng.

Catching the Jimmy Dean Show in Reno Sunday evening were Lucille Caine of Incline Village, Lee Ryser of Truckee, Lucille's daughter and her husband, Judy and Mike Kaspian, of Reno, Cathy and Bruce Draney of Reno, (Lucille's son and his wife) and Bethel Van Tassel and son, Pieter.

Judy Kaspian was celebrating her birthday which was on September 29. She is working at Weinstein's. Bruce and Cathy and baby son Eric have just moved to Reno as Bruce has enrolled at the University of Nevada.

Lee Ryser reported that son, Leroy, celebrated his birthday July 13 in Vietnam. Leroy is married to the former Sue Ack-erbach. Leroy attended Tahoe-Truckee High and the Kings Beach schools.

Lee's daughter, Gloria and husband Willie Bargas, are Carson City residents and welcomed a baby daughter, Jean Marie, born September 13.

Jacquie Black, president of the Fire Sirens, has appointed Martha Bernard of Crystal Bay as publicity chairman of the group. A meeting will be held at the Incline Fire House on October 10 to discuss the year's program — bake sale, Christmas decorating, annual card party, and other money-making functions of the group.

Barbara Norris of Incline Village entertained the Presbyterian Women's Guild at her

home last month. The group will meet October 16 at the home of Virginia Engelhard at Incline Village. These meetings are open to all women of the area who would like to attend.

The Guild plans a rummage sale, card party and general organization for the coming year. Jo Humphrey is president.

The Women's Club of the North Shore with president Judy Thatcher met at the Crystal Bay Club Monday. Martha Bernard of Crystal Bay gave an informal talk on "Pakistan" where she and her husband, Harry, lived for several years.

A report was made on the annual fashion show held last July at the North Shore Club under the chairmanship of Gerry Cross. It was very successful, being one of the biggest social events of the year. Monies raised at the show are always for a benefit.

Note: Several have suggested clearing dates for rummage sales, card parties, etc. etc. It is always distressing to report two fun activities being held on the same date thus lessening the success socially and financially of each. Why not have club presidents or a delegated member clear dates in planning activities so events won't conflict?

Ann and Shirley Wilkins of Tahoe Vista celebrated their wedding anniversary September 29 with dinner at the North Shore Club. A trip to the Bay Area to visit friends and relatives for several days added to the festive occasion.

Last weekend Shirley's brother and wife, Mark and Doris Wilkins of Berkeley visited at Tahoe Vista. During the week the Wilkins enjoyed a visit from Gladys Farmer of Oakland for a couple of days who was on her way to La Jolla.

Stopping at the Wilkins for a visit Sunday were Rose and Ed Harter of Piedmont and Mrs. Sweet. The Harters accompanied Mrs. Sweet to Incline Village for the weekend that she could check on the new home being constructed for the Sweets.

Sharon and Hewitt Clark of Incline Village enjoyed a combination business-pleasure trip to Carmel last week.

Jo and Mike Bosta of Tahoe Vista enjoyed a vacation to Las Vegas and way points for the past month.

Claire and Al Bettencourt of Tahoe Vista have closed their resort for the winter and are at their Gilroy home. After the hunting season, the holidays, and relaxing with friends, the Bettencourts will spend the winter in Hawaii.

Aloha, Vera Mosier! Vera left Crystal Bay Wednesday via United Airlines out of Reno for Hawaii. Last summer Vera sold Vern Villa — the resort she had managed and owned for many years — to the North Shore Club and is retiring to the Islands. When she returns to Lake Tahoe she will be a tourist! Bon voyage.

The Elks Club luncheon in Reno Friday for Lt. Gov. Ed Fike was represented by Tahoeites Jacquie Black, Flora Correia, Mary Kravchok, Martha Bernard, Inez Jordan, Thelma Klinker, Lee Cunningham and Marilyn Fitzgerald.

Gary Wood was an Incline Village visitor to his brother, Pat, and father and wife, Art and Gwen Wood at Incline. He has returned to Texas where he is stationed with the Army.

Lloyd Cross of Incline Village went to San Diego last week on a business trip. Accompanying him back to Lake Tahoe were Mr. and Mrs. Harold Stevenson of Laucadia. The Stevensons will visit with their son — in — law and daughter, Gerry, for their fall vacation.

Ann and George Ruiz of Santa Clara are new land owners on Vivian Lane, Incline Beach. They are well liked and known to localities, having spent many vacations as guests at the Incline Beach home of John Gangi.

Frank Adams, former resident of the North Shore, is visiting James McCourry at Incline Village from his present home in Idaho.

Bob Mercer of San Jose spent several days at home with his mother, Carol, and sisters, Dorothy and Ella Mae, at Incline Beach. Mr. and Mrs. Chester McMillian of Kentfield were guests of the Mercers this past week.

Mae and Mex Springer and sons, Ricky, Jon and Tom, of Incline Village and Dorothy Peterson and daughters, Joan and Maureen, Ann and Clarence Lyons and son Tom and wife, Billie of Reno and the Terry Callahan family spent last weekend in the boondocks hunting sage hens. Camping, and hunting made for a fun outing.

Connie Stevens phoned Daddy Teddy at the North Shore Club last week with the good news that she is starting a picture for Warner Bros.

At the close of the North Shore Club on October 27 (how quickly the season has ended!) Teddy enplanes for New York to visit his sister and two brothers, Phoenix — at the La Quinta Hotel — is his destination for the winter of the John St. John Trio, John and Don Cadette are the other two members of the trio.

The Emira Sudiary and children, Sherriffah, Madha Mai and Ziad, who spent the summer with her parents, Flo and Ryland Goodspeed at Crystal Bay, departed via Reno for their home in Arabia last week. The Emira's sister, Claire Simpson, and Bonnie Moore came to Reno with the Goodspeeds to bade them farewell.

Bonnie Moore of Crystal Bay visited her cousin, Ellice Reynolds in Los Angeles, and friends in San Francisco for several days vacation.

Joy Plunkett, president of the Republican Women's Club of Crystal Bay and Incline, reports a fun affair at the Ponderosa Ranch for the candidates last Saturday night.

Assemblyman Tom Kean and wife, Josie, enjoyed cocktails at the home of Barbara and Gary Mullard at Incline before attending the barbecue.

Mr. and Mrs. Ted Armstrong of Omaha visited daughter, Lynn, at Incline Village enroute to Tokyo and Bangkok for a vacation. The Armstrongs will shop in Hong Kong for Dynasty fashions for the Racquet Club pro shop.

Lynn says to make early reservations for the Halloween party October 26 at the Rac-

quet Club, Mickey Gentile will provide music for dancing. Only 150 persons can be accommodated so phone soon!

Donald Dell, of Washington, D. C., captain of the Davis Cup Team, has been at the Racquet Club as has Julie Hildman, Julie is going to the Olympics in Mexico to represent the U. S. in tennis. Her mother, Gladys Hildman, publisher of World Tennis, is with her.

Holding tennis clinics is Dennis Vaader Meer of Berkeley. The schools have been fortunate to have the tennis clinics for students to attend.

Martha and Harry Bernard of Crystal Bay had over thirty friends present at their Right-fest. Guest and longtime friend, Hans Von Nolde of Squaw Valley, explained the Rightfest — it is given by the Bauherr when the krone goes in his new home.

Martha's daughter, Joan Williams, made a red and white crown with streamers for the top of a small tree which was hoisted on the lodge pole of the roof of the house. Beer was served following the ceremony.

Ruth and John Buckwalter brought a living tree in a redwood tub for later planting while Lynn Armstrong brought an instant pour.

Bad, bad winter predicted with much snow, long cold seiges, and zero weather, because of heavy pinenut harvest in Ely. How come no pinenuts found at Lake Tahoe then? Because "they" say even more terrible winter weather because pinenuts at Lake Tahoe already frozen! Who are "they"?

Erma and Roy Ward and daughter, Betty, of Yuba City and daughter Wilma of San Francisco were Reno visitors Saturday to Bethel Van Tassel. Erma and Bethel are lifelong friends and neighbors from Hammonton. Esther Ritchie of Browns Valley was also a weekend visitor at Bethel's — another "old" friend, Doris and Lou Welch, Dolores (Doris' twin sister) and Charles Simmons, and the twins sister, Verna and husband, Bill Milligan, the girls all former Hammontonites, are now living in San Jose. Lou played trumpet in Dick Jurgens band which had its start at Meeks Bay many years ago. Lou was one of the original members of the band, Dick and his band are still remembered by oldtimers at Tahoe who danced to their music.

Marriage Licenses

Reno marriages have been issued to the following: Richard Voight, 44, and Anita Y. Roth, 51, both of Tahoe Vista. Clyde L. Moak, 27, Truckee, and Barbara J. Coleman, 33, Salem, Oregon; Santiago Jimenez Mendoza, 23, and Colleen N. Little, 17, both of Truckee; Frank P. Millerbis, 51, and Mildred M. Smylie, 23, both of Incline Village; Richard David Laurie 22, Kings Beach, and Paula Ann Tackitt, 18, Incline Village. Carson City marriage licenses have been issued to the following: John R. Collier, 50, and Josephine E. Seaver, 51, Carnelian Bay.

Lady Bowlers Will Meet

North Tahoe Women's Bowling Association will meet Friday, Oct. 11 at Bowl Incline. The meeting is open to all members and prospective members.

Program will be given by Irma Boyd of the WIBC field staff. She will narrate slides describing benefits of membership through WIBC sanctioned leagues. A question and answer period will follow.

Happy Group Continuing At Nevada Lodge

The swinging young group with the happy name of John Christmas and the Holidays enters its third smash week at North Lake Tahoe's Nevada Lodge, largest year-round resort hotel casino.

While this is their first appearance on the spectacular shores of Tahoe, the group John Christmas is well known for successful engagements at leading hotels and clubs throughout Nevada. Energy, talent and fresh approaches to music and comedy are the keynotes of the group's performance.

Leader of the group, John Christmas, is reminding of a youthful Cab Calloway — with a vigorous singing and dancing style that sparks the performance. He is an accomplished guitarist for contemporary pop numbers and for established standards.

Backing up John are bassists Hal Kee and drummer Ken King. Both these young artists are fine singers, and have developed comedy interplay that keeps audiences rocking with good humored laughter.

John Christmas and the Holidays will be featured at Nevada Lodge's Topaz Room through October 21. Closing Tuesday night, October 15, after sharing the bill with The Holidays, are the Three Peppers — three delightful gals who have turned the Nevada Lodge stage into the battle of male vs. female. During their debut at Nevada Lodge, the Three Peppers have solidly established themselves as one of the most popular groups ever to appear at North Lake Tahoe.

Tahoe Road Relocation Set Ski Swap Under Way At Incline

INCLINE VILLAGE — Work is being rushed to complete cuts, fills and grading of two new intersections at this lakeside community for the relocation of Nevada Route 28, which is being switched from the edge of the lake to a parallel route along Tahoe Boulevard, Incline Village's main street.

Tahoe Boulevard has been accepted by Nevada as part of its highway system. It is being widened and repaved now and will eventually be widened to four lanes.

Pushing the job to beat winter weather is the H. M. Byars Construction Co., Reno, which was awarded the relocation job on a bid of \$379,959, Sept. 5.

Biggest part of the projects is a 90,000 cubic yard cut at the east end. Dave Cardinalli, project superintendent for Byars, said the cut will take 40 working days, which will carry the job into late November.

Keeping his eye on the job is Joe England, assistant resident engineer.

The relocation is 3.9 miles long. Intersections at either end are being completely rebuilt to provide wide radius turns. A portion of the Mt. Rose Road, State Route 27, is being realigned from the edge of the lake, where it now intersects with route 28, to the new intersection with Tahoe Boulevard.

Grading will be completed before winter and paving will be started next spring when weather permits.

Incline Ski Club is having an annual ski swap at Ski Incline Lodge Saturday, Oct. 26.

Ski articles are to be taken to the Ski Incline Lodge on the morning of Oct. 26, starting at 8 a.m.

The ski swap will open at 1 p.m. Persons wanting to sell articles will pay 25 cents for articles for sale up to \$25; 50 cents for articles for sale up to \$50 and \$1 for articles over \$50.

Admission to the ski swap is 25 cents for adults and 10 cents for children. Bar and refreshments are open to the public.

Executive Department
State of California

PROCLAMATION

I, RONALD REAGAN, Governor of the State of California, do hereby proclaim that a General Election will be held throughout this State on Tuesday, the fifth day of November, 1968, at which the following offices are to be filled:

PRESIDENTIAL ELECTORS;

ONE UNITED STATES SENATOR;

REPRESENTATIVES TO THE CONGRESS OF THE UNITED STATES from each of the thirty-eight congressional districts of the State;

STATE SENATORS from each of the following twenty senatorial districts of the State: FIRST, THIRD, FIFTH, SEVENTH, NINTH, ELEVENTH, THIRTEENTH, FIFTEENTH, SEVENTEENTH, NINETEENTH, TWENTY-FIRST, TWENTY-THIRD, TWENTY-FIFTH, TWENTY-SEVENTH, TWENTY-NINTH, THIRTY-FIRST, THIRTY-THIRD, THIRTY-FIFTH, THIRTY-SEVENTH, THIRTY-NINTH;

MEMBERS OF THE ASSEMBLY from each of the eighty assembly districts of the State;

JUDGES OF THE SUPERIOR COURT in various counties as certified by the Secretary of State.

Also, such other state, county and judicial district, or other offices as are provided by law to be filled at such election.

I further proclaim that at such election there will also be submitted to the vote of the electors such proposed constitutional amendments, questions, propositions and initiative measures as are required to be so submitted by the Constitution and laws of this State.

I further proclaim that there shall be held on the same day and consolidated with such General Election the Special Election called by the Legislature by Chapter 1 of the Statutes of 1968 (First Extraordinary Session), and that there shall be submitted to the vote of the electors at such consolidated election the proposed constitutional amendment which the Legislature has directed to be submitted at this Special Election.

And I do hereby offer a reward of One Hundred Dollars (\$100) for the arrest and conviction of any person who violates any of the provisions of Division 15 of the Elections Code; the rewards to be paid until the total amount hereafter expended for the purpose reaches the sum of Ten Thousand Dollars (\$10,000).

IN WITNESS WHEREOF, I hereunto set my hand and affix the Great Seal of the State of California this 23rd day of September, 1968.

RONALD REAGAN
Governor of California

NOTICE OF IMPROVEMENT
NOTICE IS HEREBY GIVEN that on Tuesday, the 29th day of October, 1968, at the hour of 10:30 o'clock A.M. of said day, there will be a hearing on the Resolution of Intention for the Glenbrook Assessment District, Nevada County, California, and on the Engineer's Report filed pursuant thereto. Said hearing will be held at the meeting place of the Board of Supervisors of the County of Nevada, located in the Nevada County Courthouse, Nevada City, California. The purpose of the hearing is to consider any and all protests that may be filed against the improvements and acquisitions to be made, the extent of the assessment district, or the proposed assessment.

The Resolution of Intention provides for the construction of certain improvements and the acquisition of certain facilities and rights-of-way in said Glenbrook Assessment District, Nevada County, California. Said Resolution of Intention adopted on September 10, 1968, and the Engineer's Report filed pursuant thereto on September 24, 1968, in the office of the County Clerk of the County of Nevada, are referred to for all matters in connection with said proposed improvements and acquisitions.

Any persons interested in objecting to the proposed improvements and acquisitions, the extent of the assessment district, or to the proposed assessment, may file written protest with the County Clerk of the County of Nevada, Nevada County Courthouse, Nevada City, California, at or before the time herein fixed for hearing. All protests must be in writing and addressed to the County Clerk of the County of Nevada.

The total estimated cost of the improvements and acquisitions to be assessed upon the district is the sum of \$345,952.27.

NOTICE IS HEREBY FURTHER GIVEN that on Tuesday, the 29th day of October, 1968, at the hour of 10:30 o'clock A.M. of said day, there will be

a hearing on the Resolution of Intention to Amend Resolution of Intention No. 68247 in the Matter of the Bonds to be issued in the Glenbrook Assessment District. Said hearing will likewise be held at the meeting place of the Board of Supervisors of the County of Nevada, located in the Nevada County Courthouse, Nevada City, California. Any persons interested in objecting to the proposed change may file written protest with the County Clerk of the County of Nevada, Nevada County Courthouse, Nevada City, California, at or before the time herein fixed for hearing. All protests must be in writing and addressed to the County Clerk of the County of Nevada.

DATED: September 24, 1968, THEO. A. KOHLER, JR., County Clerk, County of Nevada, State of California.

West Shore Notes

By ELLEN ATTARDI
The second annual Lake Tahoe Concert Series will commence on Thursday, October 17 at the South Lake Tahoe High School with a performance given by the noted Korean violin virtuoso, Kyung Wha Chung according to an announcement made here by the North Shore chairman of the concert series, Fritz Briner. There will be four concerts in the series and another that has already been signed up is the Orchestra Micheangelo diFlorence, a seventeen piece ensemble from Florence, Italy. This orchestra was heralded by the San Francisco Chronicle's music editor "as possibly the world's top chamber orchestra."

Anyone interested in obtaining season tickets to the series is invited to call Mrs. Briner at 583-3501 for further information.

Vacationing in Yosemite this week are Don and Shirley Williams of Tahoe Tavern.

Holly Marie Miller and Bob Bells, both of Tahoe City, were married last Saturday afternoon at a home ceremony in Tahoe Tavern Heights. Officiating at the double wedding ceremony was Rev. William Dowling of the Christ the King Lutheran Church. Attending the couple were Dee and Linda DeWalt of Tahoe City. A reception, honoring the new Mr. and Mrs. Bells, was held immediately following the ceremony and was attended by members of the family and a few close friends.

In full swing is the room-mothers' committee of the Tahoe Lake PTA and they are now planning for their first event of the season, Halloween class parties. Marge Thomasberg is chairman of the committee and co-chairman is Juanita Hicks.

Assisting Mrs. Thomasberg and Mrs. Hicks are Marty Johnston, Helen Rauscher, Nancy Brodie, Margaret Carpenter, Florence Wild, Julie Fenley, Marleen Barnett, Helen Gates, Carolyn Hewitt, Margaret Ann Marillac, Nancy Henry, Pat Harder, Jean Reuter, Lillian Koenig, Holly Wilson, Carole Onorato, Sharon McIntyre, Jeanne VanWetter, Ann Von-

DerAhe, Nikki McManus, Mazie Carnell, Chirley Swan, Marian Plumbridge, Sally Prouty, Jean McKinnon, Marian Smith, Carol Files, Eva Combs, Janeal Schaumann, Shirley Evers, Carol Felich, Doneen McDaniel, June Purcell, Helen Zink and Mary Ann Connors.

Get well quick wishes to young Danny Dittberner, son of Val and Sally Dittberner of Tahoe Park, who is a patient at Washoe Medical Center in Reno after a home accident last Saturday.

Visiting with Larry and Rosemary Lindsey at their Agate Bay home is Rosemary's mother, Mrs. P. J. Fleming of Westwood, Los Angeles.

The executive board of the Tahoe Lake PTA met on Monday evening at the Tahoe Lake School with Ellie Plumbridge presiding. The group discussed programming for the coming year.

Visiting with Mrs. Holly Miller Bells at her Tahoe Tavern Heights home last week was her grandmother, Mrs. Marie Bell of Portland, Oregon.

The ninth annual Elks golf tournament was staged last Saturday and Sunday at the Tahoe City Golf Course and was a huge success according to chairman Larry Helm and Dale Freeland.

Chris Bonino of Tahoe City won the ladies' low gross title with a score of 90 while Sam Leavitt of Truckee scored a 63 to capture the men's low gross title. Second place winners were Marilyn Fugazi of Kings Beach and Ed Frates of Truckee.

Winning the low net titles were Billie Finnegan of Tahoe City and Carl Hickey of Truckee. Second placers in this division were Pat Vanni of Tahoe City and Bill Baxter of Tahoe City. The men's hole-in-one contest was won by Bud Meixner of Tahoe City while Sam Leavitt won the longest drive contest. Marilyn Fugazi won the ladies' hole-in-one with Beulah Carnell of Tahoe City placing second in this contest while Chris Bonino took the longest drive event. Winning the special Calloway contest was Earl Marr of Home-wood with Dale Bannister of In-

cline Village placing second. A barbecue was held immediately after the tournament on Sunday at the Club House of the Tahoe City Golf Course.

Congratulations to Don and Pat Harder of Comstock Acres on the arrival of their fifth child, Michael, at St. Mary's Hospital in Reno last Thursday night. Michael's brothers and sisters are Chris, Cathleen, Cynthia and Mary Beth.

Playing in a four-man best ball golf tournament at the Auburn Valley Country Club on Tuesday are local lake golfers Audrey Brehler, Bern Franklin and Marilyn Fugazi.

The Flapper Go Western party of the local Emblem Club #347 held last Saturday evening at the Elks Lodge in Kings Beach was a successful fun event with many participants enjoying the music, contests, dancing and buffet. Salley Vance of Kings Beach was chairman of the event and she was assisted by committee members Linda Austin, Diane Emery, Alice Hall and Macie Henke.

Winning costume prizes were Park and Lynette Bechdolt, garbed as Marshall Dillon and Festus, who were judged the best western costumes; Bill and Jeanette Baxter, who won the prize of funniest costumes and they were dressed as cowboy hippies; Glenn Meixner, costumed in a gown from wagon train days, was judged to be wearing the prettiest costume; Chris Bonino, in wild flapper attire, won the best flapper costume; and Bill Zeibig was awarded a prize for being the most patient contestant.

The best Charleston—or of the evening was Alice Hall who won the dance event.

The rummage sale of the Tahoe City Women's Club, being held at the Bechdolt Building in Tahoe City, will continue through this week with the daily hours being from 10 a.m. to 5 p.m.

Chairman of the sale is Helen Scott.

Wednesday, October 23 is the date of the first business meeting of the general membership of the Tahoe Lake School PTA and featured speaker of the

evening will be Pat Cody, well known UFO authority who is based at Aerospace in Sacramento.

Also featured at the meeting will be the annual meet-your-teachers event, according to president Ellie Plumbridge. The eighth grade classes will host the meeting.

Good luck to the Al Whittington's who are in their new location at Donner State Park after being at Tahoe City for the past several years. Whittington is Park Supervisor of the Donner location.

The Tahoe City Optimists entertained their spouses at a ladies' night held last Monday evening at Sunnyside Lodge. Their guests enjoyed dinner and games and there were 48 in attendance. In charge of the festivities were Bill Thomasberg and Don Wilson.

New Chico residents are Charley and Mabel Nielsen who have been Tahoe residents for almost fifteen years. Charley was in charge of the division of highways maintenance station at Tahoe City and he and Mabel were very active in all community affairs and will be much missed here. Their children, Dick and Barbara, are both graduates of Tahoe Lake School and Tahoe-Truckee High School where they were active in all student affairs. Dick is now a student at Sierra College.

The coming ski season will be off to a swinging start on Friday, October 25 when the Lake Tahoe Ski Club sponsors its annual membership dinner at the North Shore Club. This year the dinner will feature an avant garde ski fashion show under the direction of Sharon Laferriere with colorful up-to-date ski costumes the order of the evening.

Chairman Sue McCafferty is being assisted in planning the evening by Pat Gregor, Elaine Kahn, Ann VonDerAhe, Vonnice Jones and Margaret Birmingham. Highlighting the evening will be a sitdown dinner of prime rib, accompanied by salad, dessert and a bottle of wine. There will also be dancing and lots of prizes awarded.

Truckee PTA Fund-Raising

Members of the Truckee Elementary School PTA report more than 200 persons attended the recent fund raising buffet dinner held at the school. John Hemmler was master of ceremonies.

Entertainment was provided by Lolly Dunbar's whistling and piano renditions, Tony Ilardi on the electric guitar and a take-off "The Harper Valley PTA" by Manini and Gini. Numerous door prizes were awarded during the evening.

Next meeting of the PTA will be held Monday, Oct. 21 at 7:30 p.m. in the school multipurpose room. Program will be announced.

Horsemen On Hunt

Last meeting of the Truckee Donner Horsemen was an overnight ride for deer hunting. Members report the ride was excellent but the deer hunting was not so successful.

The group will devote the coming winter months to organization of the 1969 Labor Day Weekend Wagon Train. Plans will also be refined and finalized for a horse show arena to be located at Truckee.

Next meeting of the association will be held Tuesday, Oct. 15 at 8 p.m. at the Van Landing-ham home.

Childrens Eye Clinic

The Truckee Parents Cooperative Nursery announced that an eye clinic will be held Wednesday, October 30, in the school administration building.

Pre-school children will be checked for amblyopia (better known as 'lazy eye'). The screening examinations are very important in detecting amblyopia in children before they are 6 years old.

The tests will be conducted between 11:30 a.m. and 1 p.m. Parents are urged to bring all children between the ages of 3 and 6.

Donner Doings

By VI WHITE
The Fire-ettes held a meeting at Donner Lake Lodge last Thursday and had a delicious dinner.

President Karen Zirbel thanked hostesses of the evening Pat Rasmussen and Florence Waters for the lovely fall decorations that were later won by Kate Miles.

Kate also had another lucky ticket and received one of the door prizes as did Eve Popovich.

Marilyn Marquette, chairman of the coming Autumn Happening on October 19, announced that Dick Small will have a four-piece band for dancing that night.

Tickets are \$3.50 per person and will include a buffet dinner and a chance to win the valuable twelve piece set of stainless flatware, currently being displayed at the Bank of America.

Next month's hostesses will be Shirley Gini and Marilyn Nix for the meeting to be held November 7.

The skiing world lost one of its most valuable nordic junior skier supporters last week when Jerry Wetzel died suddenly in Reno. He was partner in the sporting goods firm of Coddling and Wetzel in that Nevada city for many years.

As an adviser to the Olympic Committee of the 1960 Winter Games at Squaw Valley for the jumping events, and a top skier-jumper while attending Nevada University, he was always helping young skiers, especially in the Far West Ski Association. He was named Coach of the Year

in 1966-67 and last year was appointed a jumping judge for the International Ski Federation.

The International Ski and Winter Sports Show at the Cow Palace was another big success with thousands of new items to lure skiers to shops and resorts. We enjoyed visiting with our many ski friends that were there.

Now that the inticing show is over, the next thing that comes are the annual ski movies, Dick Barrymore's "Tenth Winter" will have four showings this week, tonight at the Gunn High School in Palo Alto, Thursday at the Nourse Auditorium in San Francisco, and Friday at the San Mateo High School. All performances start at 8:30 p.m. with a \$2 admission for adults and \$1 for children under 10. Hope to notify you of any Sacramento or Reno films coming up.

Guess Willie Curran was surprised to learn that his campaign poster is brightening up the dismal surroundings of Da Nang, Vietnam. Daven Morey, Lance Cpl. in the Marines stationed there, attached the poster to a sandbagged area. He has been interviewing people and one of his tapes was heard at the Lions Club meeting last week that indicated he was right in the middle of a gun battle as

shots and commands were heard in the background.

We join his parents, Ruth and Daven, and wish him a safe return home after serving with Headquarters Battalion, 1st Marines.

The Sportsman's Buck Stew was mighty successful, but hope next year more tables will be available. The paved parking lot in town made an ideal spot for the affair.

Meet Candidates

A "meet the candidate" luncheon will be held Thursday Oct. 10 at Crystal Bay Club. Nevada's Lt. Governor Ed Fike will be the guest candidate.

Purpose of the luncheon meeting is to introduce Nevada's Republican candidate for the U.S. Senate to area democratic women. Hosts for the luncheon are Mr. and Mrs. Edward Black of Incline.

Spaghetti Feed

Donner Lodge 162, IOOF, will hold a family spaghetti dinner Saturday night, at 6:30 p.m., in the Odd Fellows Hall in Truckee.

Tickets are \$1.50 donation for adults and 75 cents for children under 12. Family games will follow the dinner.

Radio Church Of God In Session This Week

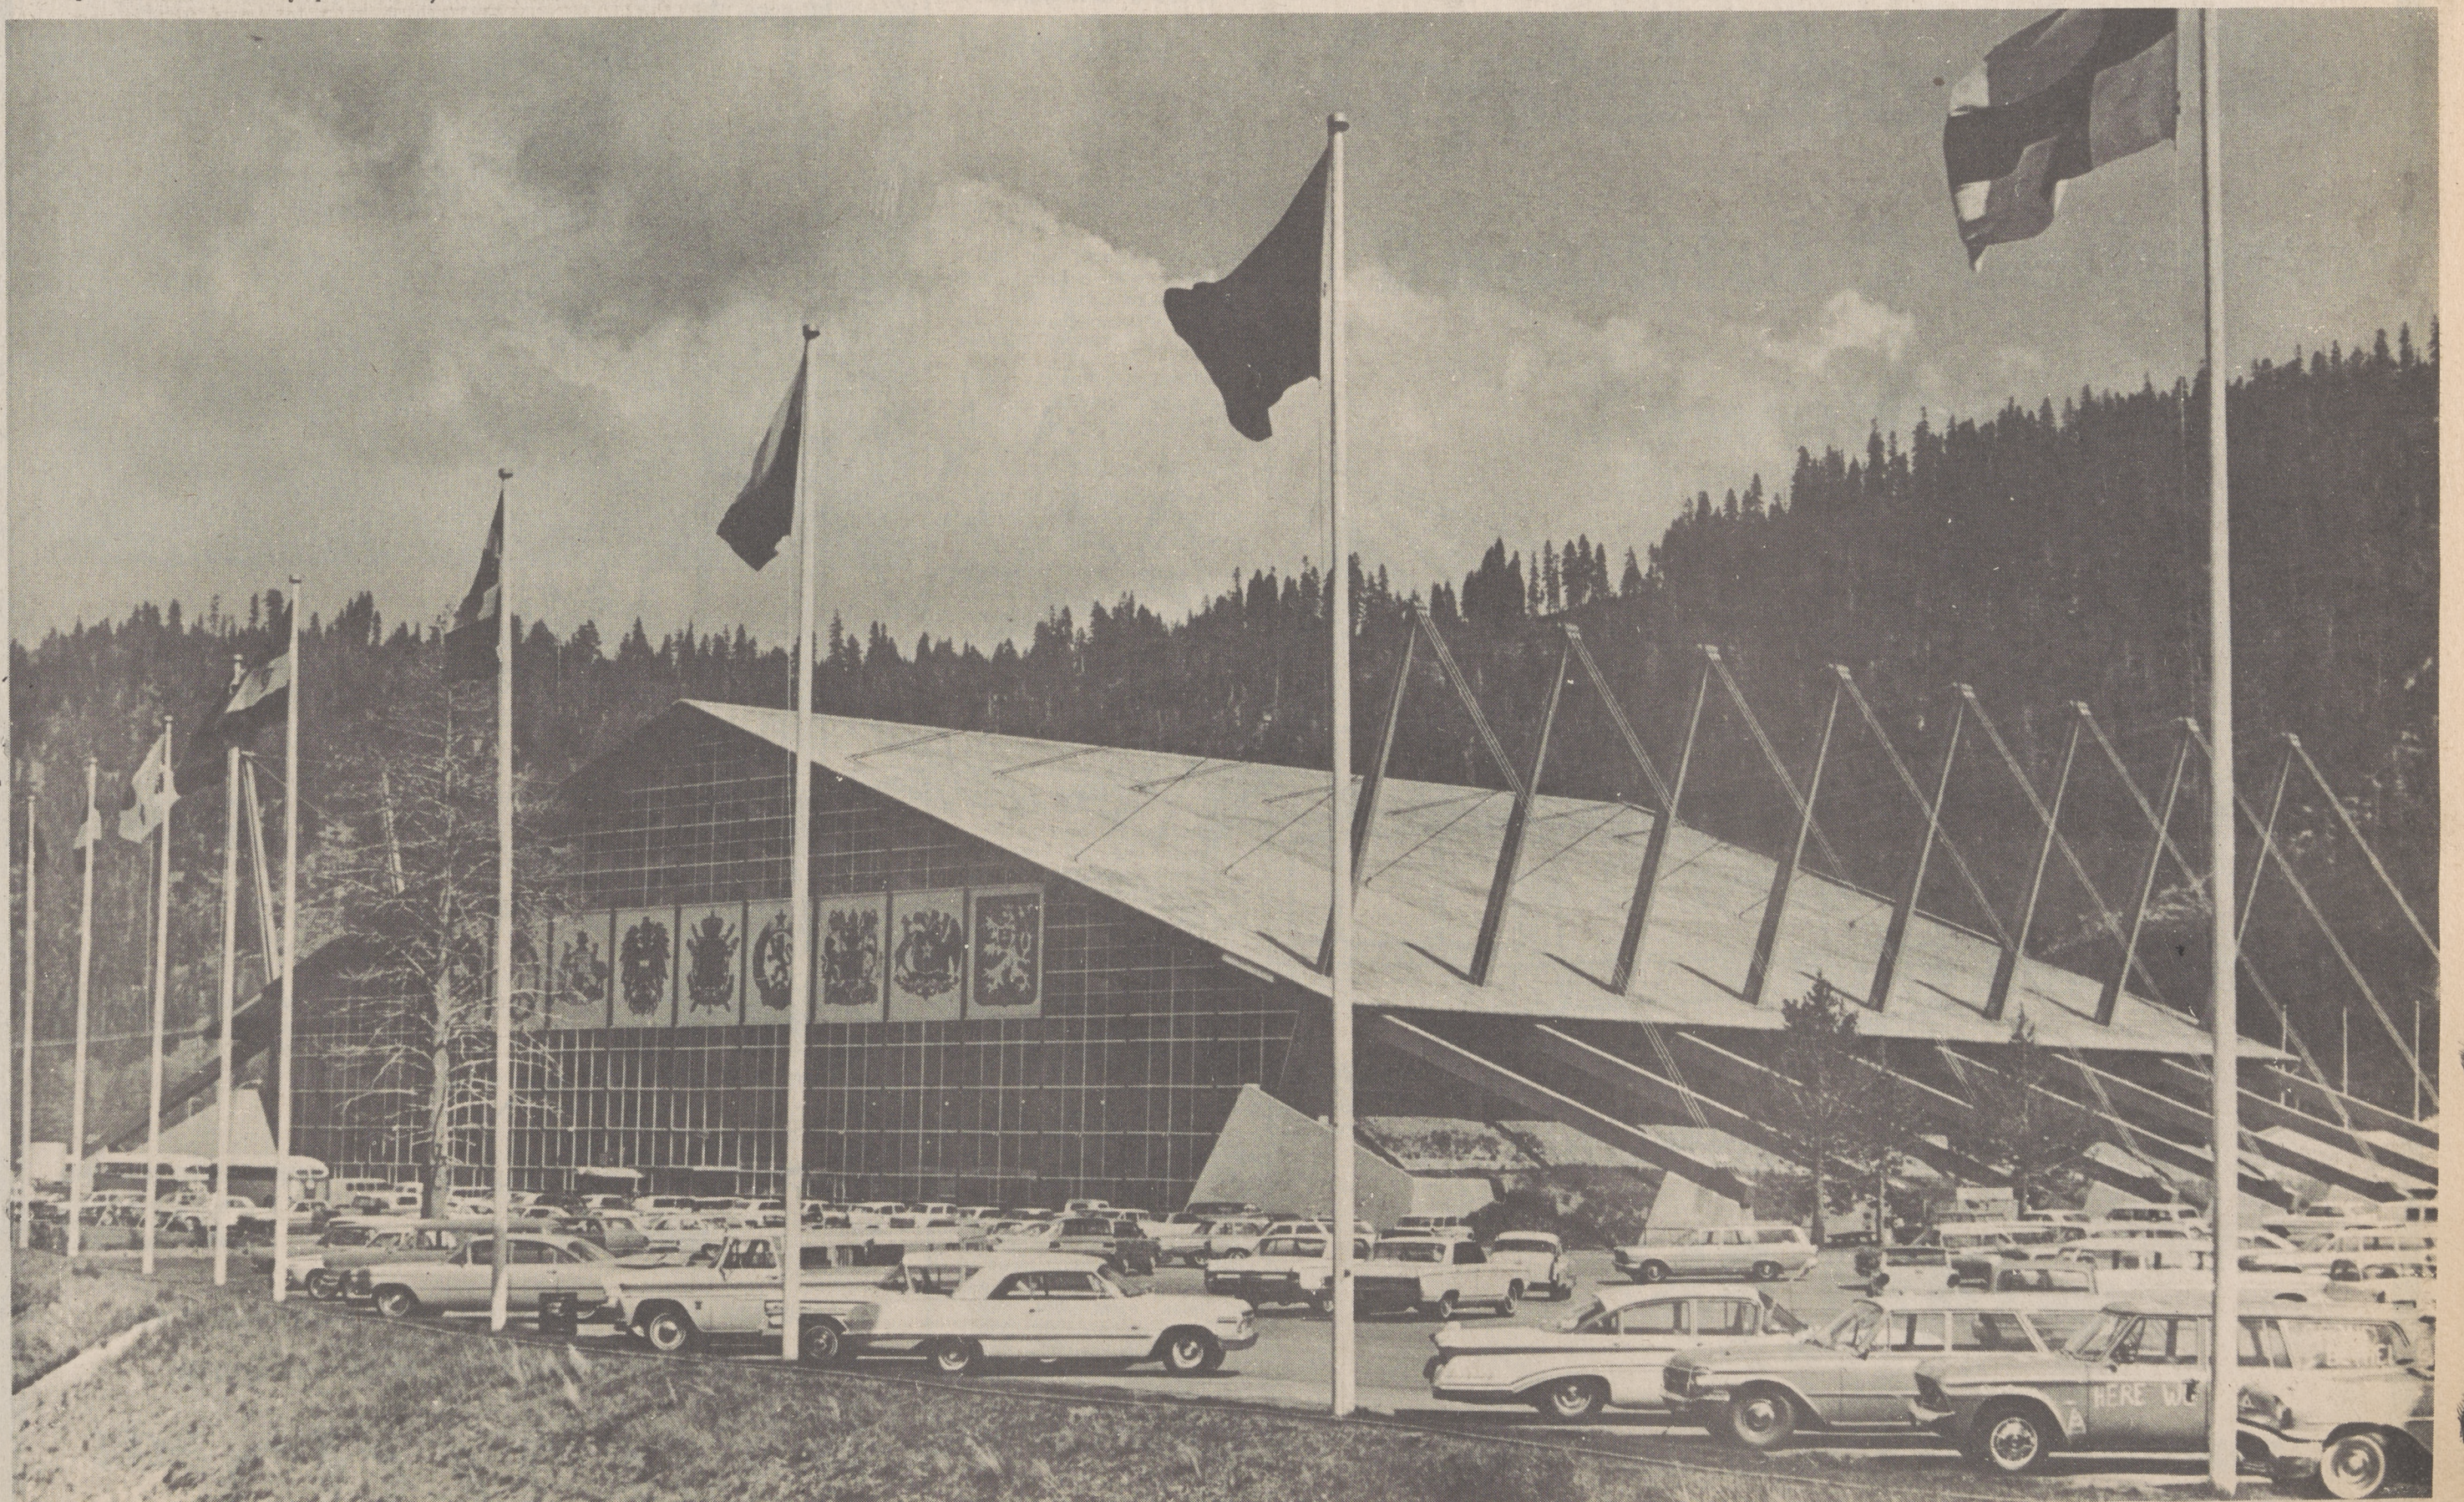

SQUAW VALLEY ON A WINTER NIGHT — This serene valley contains the world's largest and most compact ski complex; developed for the Winter Olympics in 1960, the ski facilities

are now open to the general public, and a varied program of summer activities makes Squaw Valley truly an all-year play-

ground, many national and international ski events are held each year on these famous slopes, and it is conceivable that sometime

in the future the Winter Olympics will again be conducted here.
— SKIAPA Photo

SQUAW VALLEY ON A FALL DAY — Blythe Arena, the great Olympic ice palace of 1960, is serving this week as the convention hall for the annual meeting of Radio Church of God; the

organization, with headquarters in Pasadena, arrived some 8,500 strong in Squaw Valley over the weekend, to meet in this

beautiful Sierra Nevada location for the seventh straight year; daily sessions are being held in the Olympic Arena of this

largest of all conventions to visit the Lake Tahoe area each year.
— SKIAPA Photo

WORLD'S GREATEST SKIER — Famed French triple Olympic Gold Medal winner at Grenoble in 1968, Jean Claude Killy flashes by during recent slalom race at Squaw Valley. Numerous national and international ski events are held each year at

Squaw, this country's finest ski complex. Former Olympic ski facilities are all operating and open to the public during the winter season. — SKIAPA Photo

LOYND'S DRUG

HIGH ABOVE THE VALLEY — Two young skiers gaze out over the High Sierra on a cold, clear winter day from Emigrant slopes above Squaw Valley; Sierra snows are usually heavy in mid-

winter, but frequent clear weather between storms makes the Tahoe area perfect for winter sports. —SKIAPA Photo

Three Killed In Accident

RENO — Three Sierra Pacific Power Co. employees were killed and a fourth man seriously injured Wednesday when a Southern Pacific Railroad Engine collided with a company truck on the Mayberry Road Grade Crossing, four miles west of Reno.

Dead at the scene were Russell Pradere, 26 of Carson City and Wilbur Wood, 29 of Reno. James Fisher, 42 of Sparks, was dead on arrival at Washoe Medical Center.

Surviving is 35-year-old Nick Garcia the line working foreman of the company.

STATELY MANSION — Ehrman Estate at Sugar Pine Point State Park on the west shore of Lake Tahoe is just one of the many spectacular places to visit in the Tahoe area. —Sun Photo

Truckee Flow Is Reduced

RENO — Adjustments Wednesday are expected to cut the flow of Truckee River at Farad near the California border to 400 cubic feet of water per second (cfs) winter time Floriston Rates.

But less than one-eighth of that amount of water, about 35 cfs, is making its way down the Truckee channel to rapidly-receding Pyramid Lake.

Most of the flow, about 350 cfs, is being diverted by the Truckee-Carson Irrigation District at Derby Dam about 15 miles east of here through the Truckee Canal to Lahontan Reservoir to meet the demand of farmers and ranchers in the Fallon area.

Federal Watermaster Claude Dukes Tuesday reduced releases from Lake Tahoe and Prosser Creek Reservoir to get the river down from its 500 cfs summer time Floriston Rates. He said the gates at Tahoe City were lowered to cut outflow from 125 to 75 cfs while releases from Prosser dipped from 140 to 100 cfs.

Dukes reported Sierra Pacific Power Co. has begun releasing water from its privately owned Independence Lake and from Donner Lake to provide storage space for possible winter flood water. "It is anticipated Donner, Independence, Prosser and Boca Reservoir will all be down to their respective flood reservations before Nov. 1," Dukes said.

Elevation of Lake Tahoe Tuesday was 6,227.28 feet above sea level, almost two feet below its maximum agreed elevation of 6,229.1 feet. Dukes expects the lake level to fall slowly during the next two months down to about 6,226.5 feet by early December before winter storms begin adding more water to Tahoe. Normally there is little significant precipitation in the Sierra during those months.

Discouraging

Opposed to the early horseless carriages, country folk in the United States used to puncture tires, according to the National Automobile Club, by sprinkling broken glass, rakes, nails, and saw blades along the muddy roads.

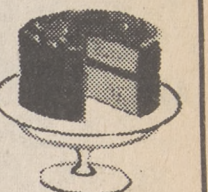

Jeepers Help Forest Service

Members of the Pioneer Jeep Club of the North Tahoe-Truckee area conducted a conservation work project recently in the Barker Pass area according to local forest service officials. Ten members of the club put in a day of hard labor repairing stream crossings and badly eroded portions of the old Barker Pass jeep road.

Department Says Dogs Can Stay

SACRAMENTO — For the second straight year, dog owners will be allowed to keep their pets overnight in state park campgrounds. But they are warned that the regulations governing the behavior of pets will be strictly enforced.

In making the announcement, State Parks and Recreation Director William Penn Mott Jr. said that during the first one-year trial period, more than 110,000 dogs were registered overnight in campgrounds, but that better than one out of every eight was involved in a rule infraction that resulted in either a warning to the owner or a formal complaint by a fellow camper.

"Very few citations were issued last year," Mott added. "We were hoping that verbal warnings would be enough. This year it will be different. Pet owners who allow their animals to violate park rules can expect to be cited and fined. And, unless there is a decided improvement, the policy of allowing dogs overnight in state campgrounds will be discontinued."

In brief, regulations governing pets in state park units are as follows:

Vicious or unusually noisy dogs will not be allowed to enter or to remain in a park unit. During the day, dogs must be kept on a leash of not more than six feet in length, or must be confined within a vehicle.

SQUAW VALLEY STATE RECREATION AREA

Memories Are Improving

California motorists' memories are improving, according to the State Department of Motor Vehicles. The number of drivers who remember to renew their licenses on time has increased remarkably over what it used to be two years ago. "Every day," reports Department Director Verne Orr, "many motorists coming into our local offices for license renewals must admit sheepishly that more than 90 days have gone by since the renewal deadline stamped on the license — their birthday — came and went."

"Two years ago such late renewals were running 4,140 a week statewide. That was 13 per cent of the weekly renewal volume of 30,775. For the last twelve months, late renewals have averaged only 8 percent, and last July actually reached a low of 7.5 per cent."

"We're delighted to note that more motorists are getting the prompt renewal habit," Orr continued, "because drivers

have a definite stake in renewing on time. If they're more than 90 days late, the law says we have to treat them as first-time drivers, giving them a road test again instead of just the written and eye test. And for their \$3.00 fee they then get a license good for only three years instead of four."

Orr said motorists may renew their drivers licenses as much as six months before their "expiration birthday" without losing any of the unexpired time from their new license.

If every driver were to check his license expiration date today, and renew on time, DMV could reduce its monthly workload by 15,000 road tests at a saving of more than \$16,500.

Spinach Salad

Torn fresh spinach, sliced fresh nectarines, crumbled blue cheese and a chilled vinaigrette dressing make a delightful tossed salad for summer.

Try Your Luck

Fish abound in the many streams lacing the mountains and valleys in the Squaw Valley area as well as in the waters of Lake Tahoe and Donner Lake.

There are times when the fly fisherman can get the greatest catch of his fishing career in the Truckee River and other nearby streams. However, spinning equipment is generally deemed best overall. Use it with favorite lures of worms or salmon eggs and you might come up with a good catch of German Browns, Cutthroats, Rainbows or Eastern Brook.

These same fish are to be found in Lake Tahoe waters, which also boast Mackinaws and Kokanee Salmon.

While most area streams and lakes observe the regular California sport fishing season and license requirements, Lake Tahoe is open to angling all year and either a California or Nevada license is acceptable anywhere on the lake and from the shore in either state.

Sporting goods stores in Truckee or at the north shore can supply the required licenses as well as information and equipment needed to catch the big ones.

Nevada Will Name Five To Agency

Nevada will be asked to appoint its five members to the bi-state Tahoe Regional Planning Agency. It was agreed Wednesday at a joint meeting of the California Tahoe unit with its Technical Advisory Committee.
J. Allen Bray, CTRPA president, said he would confer with Nevada Gov. Paul Laxalt and suggest members be appointed even though they will not be able to act in their official capacities until a bill now before Congress to ratify the bi-state compact becomes a law.
Appointment of Nevada members has become urgent with the application for federal planning funds to cover the updating of the Tahoe 1980 regional plan. The application has greater impact when signed by two states agreeing on the need for a regional plan. The plan will cost \$261,000.

The committee members agreed to review plans of local governing agencies until a new policy is prepared. Attorneys were ordered to draft a new procedure removing routine local planning matters from the overcrowded agenda.
At the suggestion of Frank Stead of the League to Save Lake Tahoe, the TAC unit agreed to add a member from the California Bureau of Sanitary Engineering.
The committee then reviewed a proposed subdivision ordinance presented by Fred Barber, Placer County planning director. The ordinance was drawn up to require each local government at Lake Tahoe upgrade its planning to meet the goals and policies set by the regional agency.
The ordinance will cover cuts, fills, drainage, esthetics and protection of the lake's water quality.
One provision will provide for the undergrounding of all telephone and electric utilities. The draft is now in the hands of attorneys and will be rewritten by them for presentation at the Nov. 6 meeting.

Dividend For Sierra Pacific
A 17-cent per share quarterly cash dividend on common stock was declared by directors of Sierra Pacific Power Company today in Reno, (October 1, 1968).
The authorization continues Sierra Pacific's half-century tradition of common stock dividends. The dividend, which will go to more than 12,500 owners of more than 4.25 million shares of common stock is payable November 1 to holders of record October 18.
Directors also authorized dividends of 61 cents on Series A and 59 cents on Series B preferred stock.

Engineer Firm Asks For Interrogation

AUBURN — Attorneys for McCreary — Koretsky Engineers, who last year filed a \$6.2 million defamation lawsuit against 16 members of the 1967 Placer County Grand Jury, have moved to order former jury member and county supervisor — elect Ray Thompson to answer questions about the jury's action.

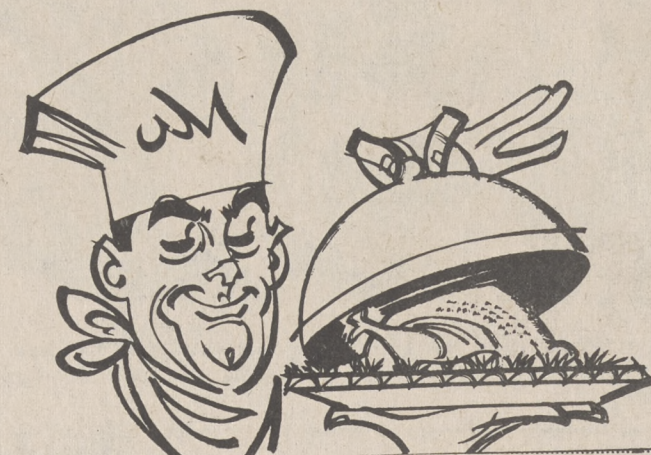

The nature of the questions were not disclosed, but Dist. Atty. Daniel J. Higgins stated

they apparently were about discussions and actions of the jury during 1967. Higgins explained under present law it would be a misdemeanor for Thompson to disclose this information.

The action was filed against James A. Denino of Roseville, who was foreman of the grand jury which issued an interim report. Officials of MKE, consultants for the Placer County Water Agency, charged the report accused the company of

"unspecified defects in professional services." They called the report "unjust" and "unsubstantiated," and claimed it seriously damaged their business.

The report, signed by all but three members of the jury, asserted the engineering company basically was responsible for a number of lawsuits against the water agency, and its engineering services should be terminated by the agency.

Liquid Embroidery Classes

Mrs. Joyce E. Goff of P.O. Box 878, Cottage Hotel, Truckee, has qualified as an instructor in the popular handicraft of liquid embroidery, and will offer classes without charge to local residents.

The new instructor has been appointed to serve this area for products manufactured by Tri Chem, Inc., of Belleville, New Jersey, originators of the unique decorative hobby. She will present sessions at local clubs and community meetings, as well as at private parties in homes here.

Liquid embroidery is a widely used decorative method which creates colorful design effects on clothing, household linens, and all sorts of fabrics by means of specially designed ball — point — tipped tubes of washable color. It produces

satisfying results even for the beginner, and offers the beauty of painstaking embroidery in a fraction of the traditional time. The method is also applicable to wood, plastic, glass, and many other materials.

Large Tires O.K., But ...

PLACERVILLE — The growing tendency to modify automobiles by using larger tires than the original equipment has resulted in many motorists exceeding the speed limit, Captain W. T. Kramer of the Placerville office of the California Highway Patrol warns.

"The speedometer of an automobile is calibrated for the size of tire which originally was installed on the car," Capt. Kramer said.

"Increasing the size of the tire nullifies the calibration and destroys the accuracy of the speedometer. For example, changing from a 6.00 x 13 to 7.00 x 13 tire, which increases the cross-section by one inch, will result in substantially higher speed than that shown on the speedometer."

The Patrol recommends that any tire size change of more than one-half inch in cross-section be accompanied by a recalibration of the speedometer, Capt. Kramer stated.

Thousands Of State's Welfare Recipients Get 'Second Chance'

SAN FRANCISCO — 12,000 California welfare recipients will have a chance for training and jobs, the U.S. Department of Labor announced today.

Kenneth C. Robertson, the department's regional manpower administrator, said California will provide job-training through local WIN (Work Incentive) projects to be administered by the California State Employment Service.

He said that of a total of \$26,700,000 just authorized by the department for WIN projects in eight states, California will get \$13,200,000 to be supplemented by \$3,300,000 in state funds and services.

Robertson said 18 states are now participating in WIN programs, with over \$16-million authorized.

By the end of June, he added, some 92,000 training opportunities costing \$100-million will be available as other states join the WIN program, which must be in operation in every state by next July 1.

Additional \$35-million has been authorized for day-care facilities for children whose mothers will be in WIN programs.

Under present law, unemployed fathers on public assistance must be referred to a state WIN program within 30 days of that program's inception.

In addition, priority will be given to welfare recipients presently enrolled in work-training programs to avoid unnecessary gaps and delays in training.

Eligible for the WIN program are members of households receiving aid to families with dependent children, who are over the age of 16 and not in school full time. The exceptions are:

- 1) The sick, the incapacitated,

and the elderly;

- 2) Those who live too far away from a WIN center to make participation practical;
- 3) Full-time students;
- 4) Persons whose continuous presence in the home is required because of the illness or incapacity of another member of the household.

A person referred to the WIN program who refuses to participate without good cause may have his portion of the family's welfare payments cut off. This action would be taken only after opportunity for hearings by an impartial body.

Angelo Noce Week Proclaimed In California

SACRAMENTO — Gov. Ronald Reagan has proclaimed this week Angelo Noce Week in California and said "it's high time Angelo Noce be honored as the father of Columbus Day in America." The governor signed the proclamation Oct. 2.

The Senate resolution was introduced by Sen. Stephen P. Teale, D-Railroad Flat, and the Assembly resolution was introduced by Assemblyman Eugene A. Chapple, R-Cool, Chapple

amended the resolution to include a mention of the Knights of Columbus and a request that Gov. Reagan sign the proclamation. It was the amended Chapple proclamation that the governor signed.

Knights of Columbus Squires will receive a similar proclamation from Sacramento Mayor Richard H. Marriott and start a relay type run from the Mayor's office in Sacramento to the mayor's office in Jackson, Calif.

Road Right-Of-Way Agents Getting Notice

RENO — National recognition has been given four highway right-of-way agents, according to State Highway Engineer John Bawden.

The American Right of Way

Association has formally registered Eldredge Porch, Willis Reil, George Wilkerson and Warren Pratt as senior members of the organization.

All four are employed in the headquarters right-of-way and utilities divisions, and are residents of Carson City.

State Board Of Education 'Anti-Watson'

The State Board of Education is vigorously opposing Proposition 9, the so-called "Watson Initiative," on the Nov. 5 ballot.

The board voted its opposition at its recent (Sept. 12-13) meeting in Los Angeles after hearing that if passed Proposition 9 would wipe out local control of schools, cause class sizes to increase and put many pupils on double sessions.

Harry Fosdick, assistant executive secretary of the California Teachers Association (CTA), pointed out Proposition 9 would strip local schools of 60 per cent of their financial support over a five-year period with no guarantee that the money would be replaced.

Replacement of the funds would have to come from the state, which would have to increase the sales tax to 12 per cent, or the income tax by 300 per cent to raise the money, he said. This, he added, would put the state in full control of the schools, with local parents having no possible way of supporting quality education above a mediocre state minimum.

Fosdick also pointed out that only 30 per cent of the property in the state is owned by homeowners. Thus the big land owners, who have 70 per cent, would benefit the most from Proposition 9.

State Superintendent of Schools Max Rafferty also urged defeat of Proposition 9, which he called "a very dangerous proposition."

It's Not Over Yet In Lawn Department

That final pre-winter lawn cutting is an important start to a healthy lawn next spring. Just as vital to caring for that lawn is making sure your power mower is in good condition for the next season.

Champion Spark Plug Company offers 10 tips on preparing your mower for storage to make sure of top operation when spring rolls around. Before performing these steps, make sure the spark plug lead is disconnected to prevent accidental starting.

1. Drain the fuel tank until it's almost empty. Then, run the engine until all fuel is gone. This precaution will prevent formation of harmful deposits in the fuel system. Leave the tank empty so you'll have a fresh gasoline supply next spring.

2. If your mower has a four cycle engine, drain the oil and clean out the accumulated sludge. Refill the crankcase with the grade recommended for your unit.

3. This is an ideal time to clean or replace the spark plug. If your present plug is still serviceable, file the electrode so it is flat and has a sharp edge. Also regap the plug to manufacturers' specifications. Make certain the gasket or any debris is removed from the plug seating area. If you find the old plug worn or heavily laden with deposits, install a new one. Before replacing the old plug

or installing a new one, do this. Pour about 1 oz. of oil into the cylinder. Then turn the engine over several times either by turning the blade or pulling the starter to distribute the oil on the cylinder wall and pistons.

4. Remove and clean the air cleaner screen. Then reinstall it. If the cleaner is the oil bath type, replace the oil and either clean or replace the element.

5. Inspect the V-belts (if so equipped). If they are beginning to look cracked or worn, replace them now.

6. Remove the muffler after soaking the threads with oil. Dislodge accumulations of carbon. Clean out all carbon buildup with wooden or plastic tool (for example ice cream stick, etc.) from the engine's exhaust port before reseating the muffler.

7. Check all nuts, bolts and connections for tightness.

8. Check operation of the choke valve. This valve should be completely closed when the throttle is in the start position.

9. Clean the cooling fins.

10. Clean all clippings or the mower with an oil-soaked cloth or good automotive wax to guard against rust. Cover the machine and store it in a dry, ventilated area. Be sure to retard the throttle all the way and leave lead off spark plug to prevent accidental starting.

Don't Let Your Car Get Rundown

Support for periodic motor vehicle safety inspections, as spelled out in the Highway Safety Act of 1966, has come from Allstate Insurance Companies' Sacramento Regional Manager and Allstate Safety Crusade Representative, Rolland T. Hoffman.

He stated that vehicle safety tests can be an important step in reducing traffic crashes which kill one thousand Americans every week and injure almost ten thousand every day. "All of the answers aren't known, but enough has been learned from research to show there are significantly lower death rates where safety inspections are the rule," Hoffman said.

He called for vehicle inspections:

(1) at least annually, so long as the vehicle remains titled to the same owner.

(2) upon initial registry in the state, as a new or used vehicle.

(3) upon sale and registry transfer as a used vehicle. Inspections should be made of those parts of the vehicle which are related to safe performance, Hoffman pointed out. In addition, there should be periodic re-examinations of all drivers. The safest vehicle cannot remain crash-free if its driver is unsafe, Hoffman said. "Safety inspection of vehicles, like the licensing of drivers, is basically a function of state government," he continued.

"Therefore, the operation of vehicle safety inspection stations is a government responsibility. As a practical matter, however, it may be advisable that the state administrative agency utilize privately-operated safety inspection facilities (e.g., garages, auto dealerships) in lightly-populated areas in which it would not be financially practicable to install a state-operated facility," he said.

"These stations should be checked regularly and thoroughly be state government personnel to assure that they are being operated in accordance with state regulations," he said.

"Every motorist has the right to assume that every vehicle he meets on the road has been certified safe by the state. Periodic vehicle safety inspection can help provide that right and be an important factor in reducing the carnage on our highways," Hoffman observed.

"It is doubtful that Americans would travel in commercial airliners if they did not know that the aircraft are thoroughly safety-checked on a regular basis. Yet, these same Americans, as motorists, take their cars on the road every day without assurance that their own car and the vehicles they meet are safe from dangerous mechanical defect.

"After all," Hoffman concluded, "safe driving is the driver's responsibility but the best driver on the road cannot avoid a crash if his vehicle fails at a critical time."

For a free brochure entitled "Every Car A Safe Car," write to Joseph F. Gallardi, Public Affairs Manager, Allstate Insurance Companies, 2829, Watt Avenue, Sacramento, California 95821.

MEMBERSHIP DRIVE — Officers of the Lake Tahoe Community Concert Association complete plans for their annual membership drive which will be held Oct. 6 through 11. They are Ed Sauer, treasurer; Evelyn Gallo, president; Helen Wilson, secretary; Bill Hauck, concert chairman; Esther Evans, campaign chairman; Marion Hale, co-chairman of the campaign; Dr. Will Cluff, first vice president, and Kay Butler, third vice president, not pictured.

Concert Group Opens Fall Membership Drive

Lake Tahoe Community Concert Association has designated Oct. 6 through 11 as membership campaign week when present members will be called upon to renew their subscriptions and other residents of the area will be given an opportunity to become a member of the association. The campaign is being conducted by members of the board of directors for the 1968-69 season.

Mrs. Owen F. Evans, membership chairman, has announced a goal of 450 memberships. She and 70 volunteer workers will spend the week contacting prospective members and they will also be available to answer questions pertaining to the association and its activities.

Mrs. Eugene Hale, co-chairman of the campaign committee, anticipates a sell-out of memberships prior to the close of the drive. If the quota is reached the drive will close before the announced date. No memberships beyond the quota will be accepted, Mrs. Hale said.

The annual campaign kickoff banquet will be held Sunday evening at the Vali Hi, according to Mrs. Fred M. Gallo, association president. A special workshop and board meeting was held Thursday evening at campaign headquarters in the Tahoe Savings and Loan Building.

Officers and board members of the Lake Tahoe Community Concert Association include Mrs. Gallo, president; Will Cluff, Jr., vice president; Esther Evans, second vice president; Kay Butler, third vice president; Helen Wilson, secretary; Ed Sauer, treasurer; Bill Hauck, concert chairman; and Betty Tooker, banquet chairman.

Serving a three-year term as members of the board are Ann Cantrell, Evelyn Gallo, Marion Hale, Bill Hauck, Jim Hildinger, Molly Olsen, Dr. Kenneth C. Smith and Betty Tooker. Two-year term board members are Kay Butler, Ethel Clarke, Dr. Will Cluff, Jr., Doris Johnson, Tony Magliari, the Rev. Dean Metzner, Art Vartanian and Helen Wilson.

Elected for a one-year term were Patrick Alkire, Fritz Briner, Dr. Byron Cantrell, Esther Evans, Shirley Newton, Bud Ogden, Ray Petrogallo and Ed Sauer.

Specialized Subdivision Opposed By Supervisors

PLACERVILLE — El Dorado County Board of Supervisors has reaffirmed its opposition

to the establishment of mobile home subdivisions.

Secretaries Organize

Lake Tahoe Chapter of the National Secretaries Association (International) is now being organized and interested secretaries are invited to attend an orientation meeting scheduled for Saturday, at 2:30 p.m. in the Tahoe Savings and Loan Community Room.

Objectives and benefits of NSA will be presented by officers of the California Division and Sacramento Chapter, with a question and answer period following.

NSA is a nonprofit, nonunion, nonpartisan, nonsectarian association whose members pursue a continuing program of education and professional development. Monthly meetings, educational workshops, seminars and study groups are sponsored by NSA with special emphasis on the role of the secretary in his/her profession, the changing business world, and the community.

NSA sponsors the Certified Professional Secretary program (CPS), a two-day, six-part examination developed and administered by the Institute for Certifying Secretaries. The examination is based upon an analysis of secretarial work, with emphasis on judgement, understanding and administrative ability gained through experience. It includes skills, techniques and knowledge in the areas of personal adjustment and human relations, business law, business administration, secretarial accounting, secretarial skills and secretarial procedures.

Regular membership in NSA is open to men and women with secretarial training and experience who are presently employed as a secretary. Provisional memberships are available for the junior secretary, with Associate membership for teachers of secretarial subjects at all educational levels.

Income Tax Deadline Set

SACRAMENTO — Almost 400,000 California taxpayers are being notified this week to make an estimated payment on their 1968 state personal income tax by the Oct. 31 deadline.

Statements have been mailed to 398,700 taxpayers for payment of taxes totaling \$279 million, according to Martin Huff, executive officer, Franchise Tax Board.

Any taxpayer, married or single, whose 1967 state personal income tax was \$400 or more, must file a declaration, Huff said. The requirement also applies to married couples who file separately and report a tax liability of \$200 or more.

Taxpayers are being billed for half their 1967 tax as an estimated payment on 1968 personal income tax liability. The individual has a choice of paying this amount or estimating his 1968 tax and paying 50 per cent of the amount computed, Huff said. He added, however, that there are penalties both for underestimating the tax and for delinquent payment.

'World's Largest Trout Derby' For Tahoe Area?

Bob Gogan, Pollock Pines businessman, is promoting the "World's Largest Trout Derby" for El Dorado County for 1969 to help increase the

County Fair Slate Named

PLACERVILLE — The El Dorado County Fair Association elected directors for the 1969 fair after reducing their number from 14 to 9 in a change of the association's bylaws.

A proposal to have directors of the fair association appointed by the El Dorado County supervisors was defeated.

Directors elected at the meeting Friday on the fair ground were Roy Radon, Laura Marsh, Robert Gillette, Betty Howard, Donald Wright, Gary George, Russ Howard, Elvis Ferguson and Nancy Weisberg.

The current officers, Mrs. Howard, president, Radon, vice president and Wright, treasurer will serve until January when the directors will elect new officers.

AWARD PRESENTED — L. C. McGillivray, owner and president of South Lake Detectives, Tuesday was presented a life membership in the American Association of Criminology and the International Criminological Society and was named a fellow of the American association. Capt. W. H. Rasband, South Lake Detectives, presented the award at a luncheon at Harvey's Wagon Wheel. McGillivray is a past president of the California Association of Professional Investigators and is active on the organization's board of directors. He also operates an investigative and patrol organization with branch offices throughout the state.

— Tribune Photo

flow of tourists and tourist dollars into the county. Aimed for the months of November through April, the trout derby, itself, is expected to attract thousands of fishermen into the county during the regular trout season, but Gogan's plans are so designed, thousands of these people may be back during these winter months.

If Gogan can get the support of the businessmen in El Dorado County, he says he has the determination to prove he can give the county the most wide-spread publicity ever.

He plans to use car bumper stickers stating "World's Largest Trout Derby" — El Dorado County, Calif., and later to have a newspaper published to be distributed throughout California.

He also plans to have all area newspapers, radio and television stations aid in his promotion. Also, his purpose is to bring newcomers into the area who have never been into the county or visited Stateline casinos.

Gogan, an El Dorado County businessman who operates a tavern in Pollock Pines, says he has more than \$40,000 invested in business and property there. In 1967, he lost more than \$22,000 through forced liquidation of a hardware and sporting goods store he and his wife operated for 10 years.

"Bob's Place" is the name of his tavern that he intends to keep operating by bringing business in from other areas through his Trout Derby promotion.

"I don't ever again want to be faced with the possible complete loss of everything I have worked so hard to build and that is exactly why I am taking the proverbial 'bull by the horns' and am trying to better the economy of the entire county," he said. "I have boasted that I can do it and so help me, I intend to do just that if I can get support from my fellow businessmen."

"I'm going to push this promotion and make it the World's Largest Trout Derby," he added.

Gogan is personally contacting each businessman in the Lake Tahoe area in person. He hopes to cover this area before the winter snows make traveling too difficult.

He will cover the western end of the county during the winter months.

The businessmen will be asked to sponsor the award of a prize or prizes but none will be picked up by Gogan, since all prizes are to be awarded personally by the person making the prize award. Harvey E. West, Sr., and Mrs. Pay Gundy have endorsed Gogan's promotion.

West operates the Placer-Tahoe Lumber Company among his many investment holdings. Mrs. Gundy is one of the major land-owners in El Dorado County.

South Tahoe Voters Now Total 4,389

PLACERVILLE — County Clerk Carl Kelly said total registration in El Dorado County for the November elections is 18,689 and South Lake Tahoe has 4,389 of that total.

South Lake Tahoe figure is up from 3,907 registered for the June primary and compares with 4,137 at the primary and 4,448 at the general election in 1966.

In South Lake Tahoe there are 2,326 Democrats, 1,814 Republicans, 48 American Independent party, 7 Peace and Freedom party and 194 who declined to state a party preference.

Placerville has 2,728 registered voters. For the entire county: 10,155 Democrats, 7,638 Republicans, 280 American Independents, 11 Peace and Freedom, 4 in miscellaneous parties and 601 of no preference, make up the total.

State Is Buying Land Here For Freeway 50

Six properties along proposed Freeway 50 were removed from the tax roles with South Lake Tahoe City Council's consent Tuesday.

The land has been bought by the California Division of Highways. The lots are on Ruby Way near Wildwood Avenue; on Lost Sheep Lane near Shepherd Drive; on Bruce Drive near Glenwood Way; and on Becka Drive near Glenwood Way.

Earl Galligan, assistant district engineer with the Division of Highways office at Marysville, said Wednesday that the properties were bought with the division's "hardship fund." Persons who must sell property but cannot because it is known the highway will go through the land, for instance, qualify under the hardship program, Galligan said.

There is no rigid timetable for acquiring properties. Latest plans call for Freeway 50 construction to begin in fiscal year 1974, Galligan said. Each year the highway commission reviews plans, he said, so construction dates could be revised.

Freeway 50 is presently under the primary roads program by which the state is eligible for 50 per cent construction cost relief from federal funds, Galligan said.

If the road were declared an interstate route, up to 92 per cent would be paid from federal funds, Galligan said. George Hill, assistant highway engineer with the California Division of Highways, said Thursday that 1,500 miles will be added to the country's interstate system, under recent Congressional action.

The various states' departments of highways are submitting recommendations for routes to be designated interstate. Within a month a decision should be reached on what roads will be declared

interstate, Hill said. Highway 50 is among routes under consideration.

In Nevada, Freeway 50 in the lake basin is considered as two segments—from the state line to where Kingsbury grade intersects with present Highway 50 and from that point to Spooner Summit.

William Engel, public information officer with the Nevada Department of Highways, said the stretch from the state line to Kingsbury will cost about \$3 million. It is hoped work can begin within three years.

But the road from Kingsbury to Spooner Summit will cost about \$20 million and it is unknown when that work will begin, Engel said.

Under the primary road designation for the route, Nevada could get 90 per cent federal funding. The state wants to have the road declared interstate, which would qualify it for 95 per cent federal funding, Engel said.

As to rerouting of Highway 89 on the California side, Galligan

said requests that the highway commission reopen route hearings have been received from South Lake Tahoe City Council, El Dorado County Board of Supervisors, and the California Tahoe Regional Planning Agency.

The commission at its meeting Oct. 21-22 may consider the resolutions, Galligan said. The Division of Highways now plans rerouting that would put the intersection of 50 and 89 about a mile east of the present "Y," with 89 going through Tahoe Keys and ending near the intersection of Tallac Creek and present 89.

Present plans under an agreement with El Dorado County on Freeway 50, call for interchanges at Meadow Vale Drive near Meyers, opposite the airport and at the intersection with rerouted Highway 89.

In South Lake Tahoe, under the county agreement which the city inherited, interchanges would be at Al Tahoe Boulevard, Ski Run Boulevard and at the state line.

ATTENTION RESIDENTS & TOURISTS OF LAKE TAHOE

L. T. R. now offers daily round trip bus service between North and South Shore of Lake Tahoe, serving all intermediate points. Schedules listed as leaving from South Lake Tahoe depart from the Greyhound Bus Depot. Purchase tickets at the depot for all points.

Three European Students Attend Area Schools

EXCHANGE STUDENTS — Mrs. Gerard (Bill) Hauck, chairman for the foreign student exchange program for South Tahoe High School and George Whittell High School, visits with three European teenagers who are attending the two high schools in the South Lake Tahoe area. They are Griet Niepel, 15, Germany; Markku Juvakoski, 17, Finland; and Tarja Aro, 17, Finland. — Tribune Photo

Three European teenagers are presently attending high school in the Lake Tahoe area as part of the foreign student exchange program in the United States.

They are Markku Juvakoski, 17, of Forssa, Finland; Tarja Aro, 17, Hyvika, Finland; and Griet Niepel, 15, Buxtehude, Germany.

Markku, a senior at South Tahoe High School, is the son of Robert and Annikki Juvakoski. His father is a physician and his mother teaches domestic sciences. While residing in the United States he is living with the Henry C. French family at Tahoe Keys.

When asked what he found different about this country he emphatically said "school." He also noted that the weather here is much better than in Finland and he was amazed at the size of the trees in the Lake Tahoe area.

In comparing the U.S. and his home country he pointed out that the economy is a little better here. In Finland there is one car for every five persons. In the United States there is one car for every two persons.

Markku is studying trigonometry, history, government, typing, physical education and advanced composition. His extracurricular activities include photographic lab and international club. His hobbies include cross-country skiing, fishing and hiking.

Tarja, who is a senior at George Whittell High School, is staying in Zephyr Cove with the family of Bill Deck. Her father in Finland, Erkki Aro, is chief of a conveyor and lift manufacturing firm and her mother, Ilona, is a housewife.

School is very different, Tarja said in a Tribune interview. We can choose what subjects we want to take here and the U.S. schools are much harder. There is so much work to do, she added. In Finland students aren't given a break between classes and the lessons are much longer. We don't have a choice of subjects to study either, Tarja pointed out.

At Whittell High School she is studying English, U.S. History, civics, physical education and typing. I would love to take an art class but there isn't one offered, she added.

Tarja complements her studies at school with such extracurricular activities as membership on the ski team. She lists skiing as one of her hobbies in addition to most other sport and drawing. She also says she loves animals.

Griet's parents reside in the little German town of Buxtehude which is located near Hamburg. Her father, Ulrich, is a road construction engineer working with asphalt, and her mother, Marna, is a housewife.

Griet is a junior at South Tahoe High School where she is studying trigonometry, chemistry, art, reading, history and physical education. She is a member of the international club and plans to join the ski team.

She is living in Heavenly Valley with the Howard Ingwersen family and says she likes the area because the skiing opportunities are so great.

She finds the U.S. houses, food and cars much different from those in Germany. "Our cars are much smaller," she said.

She also noted that she found the schools to be much different. I especially like history because the teacher really tries to give the picture from both sides and because films are used in the classes.

SPEAKS AT TAHOE — Dr. and Mrs. Ted D'Amico, left, and Mr. and Mrs. John Michaelson, right, greeted Sen. and Mrs. Alan Bible as the Nevada senator visited Lake Tahoe Wednesday evening to address a dinner meeting of the Tahoe-Douglas Chamber of Commerce. Dr. D'Amico is president of the chamber and Mr. and Mrs. Michaelson were program chairmen for the evening. — Tribune Photo

Basin Waste Problem Will Be Under Study

The California Department of Public Health will be requested to study the solid waste disposal problem in the Lake Tahoe Basin.

To be included in the request are summaries, an analysis, evaluations and recommendations by the department.

Bill Landerman, director of sanitation for El Dorado County, said he will ask the board of supervisors to officially request the study at its next meeting.

The request will be endorsed by city officials here.

The decision was reached at a meeting Thursday in the offices of the Lake Tahoe Area Council attended by Jim Corneliussen and Pete Rogers of the health department, Bill Pillsbury and Gary Chase of the city, John Burnett, a state geologist, Fred McLaren, Lahontan Regional Water Quality Control Board engineer, and Lois Larson, executive secretary of the LTAC.

A report submitted by Burnett listing eight sites he has investigated was reviewed.

The sites vary from six to 44 miles from the El Dorado Campground located in the center of the city.

Rogers said incineration probably would cost approximately \$6 per ton and only reduce the quantity.

The refuse still would have to be hauled out of the basin. He said his first guess would be that land fill will be most economical despite hauling distances.

Fire Belles Elect Officers

The Fire Belles opened the fall season with a meeting at the home of Connie Wood in Kingsbury Village. During the evening the following were named as committee chairmen: Anna Foulz, party chairman; Pat Jorgensen, sunshine; Em Gillie, membership; and Delores Bryant, publicity.

Also at the meeting Mary Hansen and Betty Hubbard were voted honorary lifetime memberships in the organization. Tentative plans were discussed for the second annual fund raising "Halloween Haunt" to be held Oct. 26 at the Kingsbury Fire Station.

Becky Stennitt was installed as president of the Fire Belles of the Kingsbury Fire District Womens Auxiliary at their last summer meeting held at the home of Carol Manchester.

Relinquishing the presidential office to Mrs. Stennitt was Anne D. Foulz who held the office for the past year.

Other officers elected for the coming year were Helen Bradbury, vice president; Val Lowry, secretary; and Esther Silva, secretary.

Road Station Up For Sale

TRUCKEE — The State Department of General Services has notified four local governmental agencies the old Truckee quarantine station property just west of here is going to be sold.

The policy of the department District, the County of Nevada, Truckee Public Utility District provides that priority be given to requests from other agencies before offering surplus parcels for sale to the public.

The Tahoe-Truckee School and the Truckee-Donner Recreation District have each been notified the property is for sale at a price of \$58,000.

Ducks, Geese Invade Water-Rich Lahontan Valley Area

FALLON, Nev.—Western Nevada, particularly the multiple-use, water-rich Lahontan Valley, is being invaded by large numbers of ducks and geese, according to a Department of Interior spokesman.

Reasons for the unusual invasion are poor water conditions in states surrounding Nevada, particularly eastern Oregon.

Although Pacific Flyway populations look somewhat smaller this year, the spokesman continued, duck and goose popula-

tions are building steadily at Stillwater and Carson Lake pasture areas in Lahontan Valley.

It has been very dry between here and Alaska, he pointed out. Many of the birds are in unfamiliar territory, which may be an advantage for sportsmen.

Spring water and habitat conditions were good in the far northern breeding areas.

Alaska had somewhat better

water conditions than in 1967. Water in other Northwest territories was about the same as last year.

However, farther south, in the prairie pothole areas of Alberta and Saskatchewan, conditions were bleak as a result of a dry summer brought forth by low precipitation last winter.

Compared to 1967, the number of water impoundments was

down 34 per cent in Alberta and 62 per cent in Saskatchewan. During the summer, water loss was greater than normal.

That left duck broods stranded in dried-up ponds. By July, the remaining water areas were the fewest in number since 1961 and 1962.

Alberta and Saskatchewan normally contribute many of the mallards, pintails and canvas-

backs to the Pacific Flyway.

Although there was a 72 per cent increase in nesting this year, poor habitat resulted in the loss of 20 to 50 per cent of the breeding population.

Many birds moved northward to Alaska and other Canadian areas. However, those displaced birds from the prairies did not contribute significantly to production.

The result — birds are moving into Lahontan Valley earlier this year. Duck flights may be somewhat lower. Snow geese and Great Basin geese should be about the same as 1967. Lahontan water conditions are low.

But, fish and game authorities predict that enough water and adequate habitat will make for good hunting, beginning October

19. The season ends January 12.

"The pasture" as Carson Lake has produced outstanding duck and goose "bags" in recent

Doctors' Congress

CHICAGO — The American College of Surgeons' 54th annual Clinical Congress will be held in Atlantic City, N.J., Oct. 14-18. More than 13,000 persons,

including some 9,000 doctors from the United States and approximately 40 foreign countries, are expected to attend

Need Help On Your Social Security? . . .

This is another of a series of questions and answers on social security.

They are typical of questions answered every day by social security representatives throughout the country.

If you have a question about social security, send it to Arthur A. Johnson, Jr., District Manager, Social Security Administration, Reno, Nev. 89502. Your answer will appear in a future column.

Q: I will be 65 in 1969 and have worked only a small amount under social security. How many quarters will I need to qualify for payments?

A: If you are a man becoming 65 in 1969, you will need 18 quarters of coverage to qualify for social security payments. If you are a woman becoming 65 in 1969, you will need only 15 quarters of coverage. You should get in touch with your social security office or social security representative. You will be given a post card which you can send to Baltimore and find out how much earnings you have had reported for you as well as how many quarters you have on your record.

Even though you may not have the necessary 18 quarters, or 15 quarters if you are a woman, to qualify you for monthly payments you may have enough to get hospital insurance coverage under the Medicare part of social security. Since you are 65 in 1969, you need only six quarters of coverage to qualify for the hospital insurance.

Q: My six-month old daughter has been offered a part in a television commercial, and I have been advised that she will have to have a social security number. Is this true?

A: Yes. This parent should apply for a number on behalf of her child since the child is obviously not old enough to make her own application. Any earnings that the child has must be reported for social security purposes.

Q: I recently bought a twelve unit motel. Two of these units are occupied by permanent guests from whom I collect only rent. The other ten units are occupied on a transient basis and I furnish all services usually available in motels such as change of linens, cleaning the unit after each occupancy, etc. When I file my tax return at the end of the year, should I include the income that I receive from the two permanently occupied units as well as the other ten units in figuring my net earnings from self-employment?

A: No. Strictly rental income is not taxable for social security purposes because it is not considered earnings from self-employment. Therefore, only the income from the transient occupied units will be reportable for social security purposes.

Q: I am a prisoner in a State prison and will be 65 in January. For obvious reasons I cannot come to the social security office to file an application. How do I go about filing an application?

A: If this person will furnish his social security number, date of birth, and his name to the nearest social security office, arrangements will be made to have a social security representative meet with him in the prison to develop his application.

Q: I am completely disabled and was last able to work in February of this year. I have been receiving disability payments which will soon run out. Should I wait until they run out before I file for social security disability?

A: You should not wait until these checks stop coming before you file your application for social security disability payments. You should get in touch with your nearest social security representative or social security office as soon as possible so that you can have a decision made in your case.

U. Nevada Nursery Flourished Under Pruess

A banana tree, a ginger plant, a papaya plant, orchids and a variety of ferns have been products of the University of Nevada nursery under the direction of Herb Pruess during the past 32 years.

Pruess, who is retiring this month, has grown the specimens for both decorative purposes and for study by botany students.

Pruess has been the Reno campus' sole nurseryman since April 1, 1936, when he came to

man the greenhouses which used to be located where the Orvis School of Nursing now is.

Before coming to Nevada, he did work in the field of floriculture in both California and Utah.

Originally trained in Germany, Pruess served both an apprenticeship and took related classes in such things as landscape.

In 1960, when the University of Nevada greenhouse was moved to new quarters in what is known

as "Skunk Hollow," he took over two green houses and numerous outside beds. Three other greenhouses in the complex are used for agricultural research.

Decorations for everything from commencement to presidential parties are supplied from the first greenhouse. Small trees, orchids, and a coffee plant are among the variety of plants grown in this area.

One section is kept at tropical temperatures with the roof

coated to give proper shade.

Another greenhouse has been maintained by Pruess for botany classwork. A wide range of plants are grown to show students the different types of plant-life.

In addition, outside beds are used to grow the petunias, pansies and other flowers set out all year to give the campus an appearance of immediate bloom.

Upon his retirement, Herb and Mary Pruess plan to "just

take life easy" in a new home in Sparks.

Record Tax

SAN FRANCISCO — California beer drinkers consumed 3,300,000 barrels in the first nine months of 1968 and while so doing shelled out direct taxes of \$114 million for federal, state, and local treasuries.

Both figures are record highs, according to statistics released here by Geo. W. Ososke,

Homes Getting Safer?

NEW YORK — Are homes of today safer for the family than the homes of yesterday?

Designers and engineers are coming up with new ideas in furnishings and equipment. But the key to safety in the home still lies with the family itself, according to the Council on Family Health, a non-profit organization sponsored as a public service by leading members of the drug industry to promote home safety and family health.

For the bathroom, site of many accidental falls in the home, there is a variety of designs in grab bars, decorative as well as useful. Placed at the tub and shower areas, and on the wall where they can be grasped to help maintain balance, they prevent many a serious fall in the bathroom.

But they have to be installed. And the family has to make a point of using them.

Robber suction mats or skid-

proof tracks on the bottom of the tub are important safety adjuncts.

Child-proof storage areas can be designed for household chemicals and medicines, but it still will be necessary for responsible adults to close containers tightly and put them away, out of reach of children, immediately after use.

Skid-proof tiles and kitchen carpeting help prevent slips, but mother must be sure that walkways are kept free of clutter and in good repair.

Kitchen stoves may have glass cooking panels instead of open burners, automatic controls that can be set to protect cooks against their own negligence, and ovens which automatically clean themselves at high temperatures.

However, pot handles still must be turned to the back of the stove so children cannot pull hot food down on themselves.

Mom must remember to use pot holders or padded gloves when reaching for a hot cooking utensil on the stove.

Designers have come up with a safety start button on automatic clothes dryers to prevent a child from climbing inside and starting the dryer by closing the door.

Mother must still keep children away from the dryer as well as the washing machine.

Freezers have been designed with built-in locks to keep out little children.

But adults must prevent a discarded freezer from becoming a trap for playful children.

The doors must be removed, says the Council on Family Health, so children cannot hide inside.

Girls Outdo Boys With High Grades

RENO — Girls tend to receive higher grades than boys, and boys often have a problem communicating with female teachers.

These findings are reported by Dr. Gary L. Peltier of the University of Nevada who reviewed research of sex differences in learning, achievement and grades.

Dr. Peltier, of the College of Education, also found achievement to be influenced by cultural expectations of sex.

His suggestions for solutions to educational problems caused by sex differences will be published in the Phi Delta Kappan, publication of the honorary society of education.

Dr. Peltier found that although differences in scholastic achievement between boys and girls are not definitive, there is considerable evidence that girls receive higher grades than boys at all levels of education with two exceptions.

Later college years and graduate studies are occasions where boys may receive higher grades.

It is generally agreed that boys and girls have different styles of learning, Dr. Peltier states, and some research indicates that males and females tend to structure language differently.

Thus, communication problems between female teachers and male students can occur.

Achievement of the sexes is related to cultural expectations, also, Dr. Peltier notes, for example, that one rarely finds a high school girl who excels in science or a high school boy who does well in secretarial skills.

Dr. Peltier also concluded that girls, in general, find more success and involvement in school than boys do.

In Dr. Peltier's article entitled "Sex Differences in the Schools: The Problem and Its Proposed Solutions," suggestions for providing for individual differences are presented.

Nearly all educators agree on the need for more male elementary school teachers, Dr. Peltier says.

Many advocate admitting boys to school at a later age to adjust to the fact that boys have a slower maturation rate. Dr. Peltier believes, however, that no major school system would attempt this because parents prefer to have their children in school at an earlier, rather than a later, age.

Single sex classes in elementary schools have been found to be successful in recent experiments, Dr. Peltier notes. He predicts that future schools will base instruction on known sex differences.

Interest, maturation, and achievement will be taken into consideration in future schools to attain an individualized instruction goal.

With hunting season upon us many of man's worst qualities seem to come out. This may sound like a strange opening to start off with, but every year we're reminded of man's complete lack of consideration for his fellow man.

Like you, we'll admit there are some kinds of signery (pun intended) that we ourselves don't enjoy. However, other kinds, though not beautiful, are there for your benefit.

Example — The FOGW put in much time and effort surveying and posting the state line between California and Nevada, not to mention considerable money (yours) being spent to make the posts and paint them.

Yet each year a few so-called sportsmen, (they must be because the casual tourist doesn't frequent these areas) push these stateline markers over with four-wheel drive vehicles, pull them from the ground and roll them into gullies.

We suppose this serves the purpose of the destroyer, and perhaps there are reasons for his doing it.

We can think of a few. We don't agree but we can guess how his mind works.

The best guess is that he's building an alibi for his intended violations.

The law does not require that we put up signs in the first place. The law assumes that if you're going to go hunting you will acquaint yourself with the rules and regulations and these rules are publicized through season charts, newspapers, radio, television and personal contact.

The signs are an additional bonus, intended to keep you out of trouble.

There just aren't enough FOGWs to check, each day, to see if all of our markers are in place and to replace those that have been destroyed.

Life is not like television land; the good guys can't be distinguished by the color of their hats.

So, if by chance you innocently wander into a trap prepared by a destroyer we're sorry. And if you pay a penalty for another's misdeeds in unknowingly stepping over into a closed area or into another state we're sorry. We've done the best we can.

A final word along these lines. Storey County is closed to the hunting of the chukar and quail and other upland game birds.

The rather indefinite southern county line and even areas inside it have been posted. If these signs are vandalized there will be no replacements.

Don't be the victim of a destroyer.

FIELD NOTES:

Reports from the opening of upland game season are encouraging and generally conditions are about as we anticipated.

You can check the following figures against your own success and see where you stand on the ladder.

Gerlach Checking Station: Hunters, 1,116; sage grouse 1,857; average ird per hunter 1.2; chukar 1,444, average birds per hunter 1.29; quail 730, average bird per hunter .65; rabbits 142. Limbo Range — 68 hunters took 131 chukar.

Churchill County — chukar averaged at about bird per hunter. These are averages. There will always be those who take limits and those who must re-

County C Of C Makes Change In Procedures

PLACERVILLE — Changes in the number of officers for the County Chamber of Commerce, the quorum required for board of directors meetings, and the period for its fiscal year were approved by the Chamber's board of directors, and a change in the total number on its board of directors was proposed for membership ratification.

In the change in the number of officers for the Chamber, directors eliminated two of three vice-presidential positions, leaving the offices of president, one vice-president, treasurer, general manager and secretary in effect.

Commencing with the board of directors for 1969, nine members of the board will constitute a quorum instead of 14 as previously required.

The new fiscal year for the Chamber of Commerce will be for the period of July 1 through June 30 instead of Jan. 1 through Dec. 31.

turn slowly and sadly to the home fireside and open a can of beans.

Watch Overloaded Tires, AAA Advises Drivers

SACRAMENTO — Recreational vehicle owners are advised to never overload their tires and be sure they have enough air for the load carried, reminds the California State Automobile Association.

cases double or even triple the amount.

A number of sizes require inflation pressures of more than 50 pounds at maximum load; others require pressures in the 90 to 100 pound range.

Make sure service station attendants are advised of the right amount of air pressure for

trailer tires.

Underinflation can cause premature tire failure through excessive heat buildup.

The CSAA warns that underinflation can result in severe trailer sway, fish-tailing and possible jackknifing.

In addition, it can result in fast, uneven tread wear.

Overinflation reduces the ability of a tire to absorb damaging road shocks.

Inflation pressure should always be checked before starting on a trip, when tires are cold. To do this, the CSAA advises motorists to keep a tire gauge in the glove compartment, as service station gauges are frequently inaccurate. Never

"bleed" hot tires to reduce air buildup, as pressure increases of up to 15 pounds for trailer tires are normal.

Heat is the most dangerous enemy of all tires, especially small trailer tires.

Frequently they are smaller in diameter than those of the towing vehicle and therefore rotate faster, creating high in-

ternal temperatures which can approach 250 degrees, the level at which tires are vulcanized or cured.

The Association urges all trailer owners to carry a spare tire as insurance against emergencies, since some sizes, especially certain small ones, may not be readily available in remote areas.

Watch Your Auto Additives

SACRAMENTO — Motorists are cautioned by the California State Automobile Association to refrain from using additives in their automatic transmission fluid without first consulting with their dealer. Unauthorized use of material not recommended by the manufacturer may void the factory guarantee.

Over-lubrication is bad for

door locks. Some manufacturers treat the cylinders of car door locks with a special wax coating to prevent rapid deterioration due to moisture. Such locks can be over-lubricated, warns the California State Automobile Association. An excess amount of oil may wash away the wax coating, thereby reducing its effectiveness.

Buick Sales Going Way Up

SAN FRANCISCO, CALIF. — With Buick model year sales up 13.6 per cent compared to 1967, per cent for the industry as a whole, Frank Frost, Buick's assistant general sales manager, said today that 1968 could be the biggest year in history for Buick dealers.

Frost, who is headquartered in Flint, Mich., unveiled the

1969 Buicks here today in the Cow Palace for some 500 area Buick dealers and salesmen. He estimated that the division's dealers would sell 659,000 or more Buicks during the current year, plus approximately 90,000 Opel Kadetts, making a grand total of 748,000 sales.

The previous record for

tail sales by Buick dealers was set in 1955 when 745,000 units were sold.

In the San Francisco area market, Buick sales were up 10 per cent from a year ago for the January through August period, Opel Kadett deliveries jumped 135 per cent for the same eight months.

NDEA Funds To Help California Students

WASHINGTON, D.C. — More than 900 students will benefit from National Defense Education Act loans being made available through four Second Congressional District Colleges, Congressman Harold T.

(Bizz) Johnson, representing the Second District, said the four schools will receive more than \$450,000 in federal aid to assist in the scholarship program. The federal funds provide 90

per cent of the National Defense Student loan funds with the participating colleges providing the balance. Applications for the assistance are handled by the individual colleges.

Congressman Johnson listed the following schools and the amounts they will receive: Chico State College, \$424,440; College of the Siskiyous, \$3,847; Shasta College, \$13,374, and Sierra College, \$10,732.

Nearby colleges which are attended by many Second District students who receive funds are: American River College, \$29,520; Fresno State College, \$416,700; Modesto Junior College, \$50,400; Sacramento City College, \$31,342; Stanislaus State College, \$202,500; University of California at Davis, \$364,889; University of the Pacific, \$314,298, and Yuba College, \$14,490.

Dry Summer Will Affect Fall Hunting

CARSON CITY — The dry, hot summer of 1968 may cause some trouble for hunters throughout most of Nevada this fall, according to Peter Herlan, curator of biology at the Nevada State Museum. And it has already hurt both moths and gardeners, he reported.

"It's a sharp contrast from last year, when we had a wet spring and cool summer," Herlan reports. "This year we have had virtually no precipitation since March 15, and our summer temperatures ran in the 90's so consistently that both feed and water for animals were badly affected." All this combined with a late frost (June 28) last spring and an early one (Aug. 18) this fall to make for unusually meager wild plant growth.

Herlan said that whereas in 1967 the desert bloomed with flowers and there was unusual growth on desert trees and shrubs, wild flowers this year were scarce and there was little growth on other desert plants. "In some areas, in fact, there was considerable die-back from the previous year's lush growth. That means that it may be tough going for deer herds seeking winter browse. Bitter brush, one of their prime winter browse plants, is already rapidly drying up and shedding leaves."

As for how this all affects hunting, Herlan said that the lack of precipitation has caused many small springs and creeks to dry up completely.

"Unless chukar hunters are acquainted with permanent springs and seeps, they are probably going to have to do considerable scrambling to find birds."

"And with duck hunting coming up, the boys who like to hunt the small pot holes and ponds may be in trouble, too. They'll have to transfer their allegiance, this year at least, to the larger bodies of water — which means more competition for birds than they like."

There's a chance, too, that deer hunting will be hampered this year because of the tinder-dry hills. Conceivably, the Forest Service and Fish and Game could close large areas to hunters, Herlan said that this was likely even though there was a fairly good rainfall in mid-September.

"That rain wasn't enough to make any dent at all in the overall picture either in increasing stream flow or filling small ponds and causing springs to flow again," he said.

Even insects and man were directly affected by the weather, this year, Herlan added.

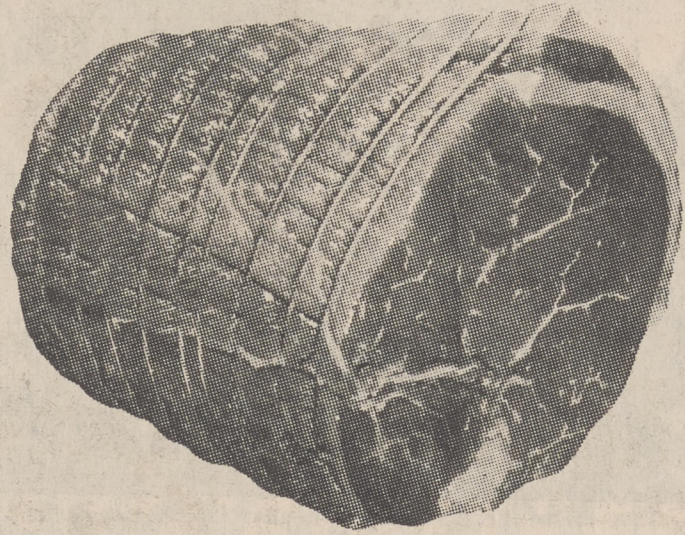

"Several species of diurnal moths, abundant last year, have been very scarce this summer. And the Nevada buck moth has failed to put in any appearance at all this autumn. Without moisture immediately, they will probably forget the whole thing, and rest over in the pupal stage, till next year."

Perhaps the most upset of all are the gardeners. "Those frosts really hurt," said Herlan. "Many gardeners lost all their tomato, bell pepper and cucumber crops."

Lake Elevation

In a measurement taken last week by Sierra Pacific Power Company, the elevation of Lake Tahoe was 6227.23 feet with 75 cubic feet per second being discharged into the Truckee River.

A measurement taken a year ago on the same date showed the lake elevation at 6228.15 with a discharge of 50 feet per second.

CORE SAMPLES — William S. Johnson, right, shows samples of cores brought up in boring deep into the cinder cone three miles north of Tahoe City. Herbert Beck, left, board member of the Tahoe City Public Utility District accompanied directors on a tour of the cinder cone site before approving plans to use it as a disposal site for the \$1-million, 2.5-million gallons per day capacity sewage treatment plant at Tahoe City. The plant must be completed and in operation by next fall.

ROADBUILDERS — U.S. Navy Seabees of Mobile construction Battalion 5 lay first asphalt north of Hue, Vietnam. More than 600 tons of blacktop has been laid on this stretch of Route 1 between Dong Ha and Quang Tri. — U.S. Navy Seabee Photo

Seabees Build Roads To Viet Battle Fronts

VIETNAM — Part of the largest Seabee project ever undertaken in Vietnam is currently under way by U. S. Naval Mobile Construction Battalion 5.

Seabees are improving and maintaining the critical war-front roads, Route One and Route Nine in the Dong Ha area of Quang Tri Province, to keep these two northern I Corps highways open for heavy supply vehicles.

Seabee equipment operators already have moved more than 40,000 cubic yards of earth-fill during the upgrading of Route One south of Dong Ha. Three miles of roadway have been widened to 32 feet and covered with a 6-inch rock sub base.

NMCB-5 is now paving this 3-mile stretch with a 2 1/2-inch covering of asphaltic concrete, the first laid north of Hue, Vietnam.

A 7-mile stretch of Route Nine between Dong Ha and Cam Lo, to the west, has received more than 120,000 cubic yards of earth fill. This section has also been widened to 32 feet and covered with a 6-inch sub base.

Seabees have placed 150,000 cubic yards of fill on Route Nine between Cam Lo and Camp Carroll, west of Cam Lo.

In addition to the work done on the road, itself, eight bridges, either destroyed by the enemy or structurally inadequate for heavy vehicles, have been replaced and culvert sections installed for drainage across small streams.

In the face of enemy harassment in the form of sniper fire and mortar fire, the Seabees have upgraded and repaired a total of 27 miles of roadway in the Dong Ha area. NMCB-5, the northernmost Seabee Battalion in Vietnam, is stationed at Camp Barnes, Dong Ha, and operates in support of United States Forces in the northern I Corps Area.

Today, throughout the United States, the U. S. Navy Seabees are seeking to recruit America's finest construction men for service in Vietnam and local Navy recruiters are offering "top rates for top men."

Road Work Scheduled

SACRAMENTO — One South Lake Tahoe project has been advertised for bids by the State Division of Highways.

Drainage improvements will be constructed on Emerald Bay Road (Route 89), about three-quarters of a mile north of Route 50.

The existing culvert at this location is inadequate to prevent flooding of the roadway and adjacent buildings during storms.

It will be replaced by several culverts of larger capacity, and side drains will be installed, as well as drop inlets and paved gutters.

Bids will be opened Oct. 23 in Sacramento. A total of \$20,000 is available for the project.

Highway 50 Federation Meeting Set

LA JUNTA, Colo. — John Gianotti, president of the Highway 50 Federation will represent this area at the federation's annual meeting here Wednesday.

Gianotti, community relations director for Harrah's at South Lake Tahoe, will be presiding officer for the business sessions and deliver reports, along with the federation's executive vice president, Doyle Davidson of La Junta.

It is expected that the federation's 27 directors from the 12 states traversed by Highway 50 will be present along with other members from all parts of Highway 50.

The group is expected to adopt a formal program of highway improvement for U.S. 50. This will be on an individual state basis and such requests will then be made to the highway commissions of the states involved.

Another key item on the agenda is to outline a legislative program working with congressmen and the Department of Transportation in Washington, D.C., to assure the needs of Highway 50 are considered in the next major highway legislation to be passed by Congress.

The meeting will set the budget and dues structure for 1968 and elect officers for the next 12 months.

Each director will give a report on his individual state and indicate present projects, planned projects, traffic count, and other items along Highway 50.

Representatives of several federal agencies and the American Automobile Association will be on hand to advise the group as to avenues that can be used in getting more tourists and improvements on this artery which goes "coast to coast" for a total distance of 3,241 miles.

Bankers Set Tahoe Meet

Local bankers will attend Saturday's meeting of Group One, a regional unit of the California Bankers Association, at the Crystal Bay Club on the North Shore of Lake Tahoe.

Featured speakers at the 3 p.m. meeting are State Treasurer Ivy Baker Priest and Roy Kanoff, Northern California district manager of Dale Carnegie Co.

Group One represents banking and trust company offices in a 22-county region bordered by Oregon on the north, Nevada on the east, Contra Costa, San Joaquin and Tuolumne counties on the south and the coastal counties on the west.

State General Fund Receipts On Increase

SACRAMENTO — State Controller Hugh Flournoy reported that General Fund receipts for the first two months of fiscal 1968-69 totaled \$446,909,100, an increase of \$130,015,957 over the same period last year.

The increase was attributed primarily to increases in sales, personal income, cigarette and liquor taxes enacted by the Legislature and which took effect in 1967.

General Fund expenses for the first two months of this fiscal year came to \$653,272,634 compared with \$531,567,938 last year. This increase resulted primarily from higher school apportionments and miscellaneous local assistance expenditures, the latter largely due to a new program providing property tax relief for senior citizens.

Flournoy said the difference between General Fund revenue and expenditures was met partly from the fund's cash balance, and partly with \$91 million borrowed from the Pooled Money Investment Account and the

Architecture Revolving Fund. The borrowing, he explained, is in line with past practice — under state law — during "dry income" periods when General Fund receipts fail to meet cash needs.

Major sources of revenue for the first two months of this fiscal year included:

Retail sales and use taxes, \$301,434,655; personal income tax, \$20,556,573; bank and corporation franchise and income taxes, \$33,534,571; inheritance tax, \$22,767,651; cigarette tax, \$29,033,007 and liquor tax, \$15,730,578.

Major expenditures for the period included:

Apportionments for elementary schools, high schools and junior colleges, \$222,332,729; bond interest and redemption, \$62,825,240; old age security, \$24,947,196; aid to families with dependent children, \$30,834,706; aid to disabled, \$12,974,740; health care benefits, \$51,601,516, and University of California, \$22,567,378.

Spot Improvement Plan Stresses Road Safety

WASHINGTON — The Federal Government and California are cooperating in a \$9.1 million "spot improvement" safety program aimed at eliminating high-accident locations from the state's highway system.

Federal Highway Administrator Lowell K. Bridwell says "the spot improvement program represents an immediate opportunity — with fast pay-off in the job of reducing the mounting toll of traffic deaths and injuries."

Since March, 1964, when President Johnson directed the Bureau of Public Roads to use federal-aid resources to help states expand this type of work, California has programmed 85 such projects on its Interstate Highway System at a total cost of \$9,110,538, shared by the state and the Federal Government.

By September 1969, the California program is expected to cost \$166,587,000, some financed by federal-aid but most by 100 per cent state funds.

Bridwell paid tribute to California for the work it has done on its own in this field: "The California Division of Highways has let to contract or has completed with its own forces 2,580 projects on its roads since 1964 at a cost of \$35,474,000, a very commendable achievement."

"Many of these spot improvements," he explained, "are comparatively small jobs not involving huge sums of money, but they bring almost immediate results."

Among the projects involved are:

Placer County — Interstate 80 near Baxter and Emigrant Gap; guardrail and median barrier construction; \$27,100.

Placer and Nevada counties — Interstate 80 from Baxter to Truckee; installation of condition warning signs; \$116,900. Interstate 80 at 15 locations in Placer and Nevada counties; pavement grooving to cure hydroplaning; \$74,200.

Interstate 80 from Golden Run to Donner Lake; pavement grooving to lessen danger of hydroplaning at five locations; \$13,635.

Interstate 80 from near Weir to State Route 20; guardrail installation at bridge approaches and piers; \$54,800.

Nevada County — Interstate 80 from Soda Springs to State Route 89; preliminary engineering for installation of guardrail; \$4,000.

Nevada and Sierra counties — Interstate 80 from Donner Park overpass to Nevada State line; preliminary engineering for guardrail installation; \$6,000.

MUSEUM FEATURE — A new exhibit of Nevada brands is located just off the main entrance and the foot of the staircase, in the Nevada State Museum in Carson City. It is proving a popular feature with the record number of tourists visiting the museum.

LOCK-OUT SUBMARINE — This is the first submarine to allow the dry transfer of a man to a submerged habitat. At depths as great as 1,250 feet a person can leave the submarine and enter another habitat without breathing apparatus or getting wet. The feat is accomplished by attaching the sub's "mating device" to a transfer tunnel on the habitat. The submarine is manufactured by Perry Submarine Builders of Riviera Beach, Fla.

Candidates To Speak At Coffee Break

RENO — Nevada's two incumbents in the Congress, both seeking reelection in November, are scheduled to meet this month with their opponents in Town Hall Coffee Breaks sponsored by the Greater Reno Chamber of Commerce and the League of Women Voters.

First of the scheduled face-to-face confrontations will be between Rep. Walter Baring and State Sen. James Slattery, the congressman's opponent for his seat in the House of Representatives.

L. R. (Bob) Hibbs, chairman and moderator for the coffee breaks, said Baring and Slattery will "meet at the same podium" Oct. 15 in the Sky Room of the Mapes Hotel. The one-hour session, beginning at 10 a.m., is open to the public. Each candidate will be allotted 15 minutes for a formal presentation of his political views. A 30-minute question-and-answer period will follow.

Slated for a second coffee break at the Mapes, Oct. 30, are Sen. Alan Bible and Lt. Gov. Ed Fike. The meeting, Hibbs reported, will follow the same format as the Oct. 15 coffee break and will begin at 10 a.m.

Cal-Vet Loan Program 'Limping,' Official Says

SAN FRANCISCO — The Cal-Vet loan program "will limp out of existence with a bad case of financial 'anemia' unless new methods of funding are developed. H. J. Johnson, manager of the state program warned.

Speaking during the California Real Estate Association's annual convention was one of two officials addressing a conference on veterans affairs sponsored by the CREA Military and Veterans Affairs Committee.

The podium was shared by Norton Beachel, loan guarantee officer for the Veterans Administration, San Francisco. Cecil Silva of San Jose, chairman of the CREA committee, presided.

"In recent years," Johnson said, "The Cal-Vet program has lost much of its appeal as home prices climbed about the \$15,000 loan maximum." Stating that the new \$20,000 ceiling effective in November is regenerating interest, he added:

"Those intending to use Cal-Vet for home financing may be frustrated by the delay in closing loans, which is inevitable whenever loan demand exceeds loan funds. This, unfortunately, is the situation so long as Gen-

eral Obligation Veterans Bonds, which produce Cal-Vet loan funds, cannot be marketed freely."

This year, CREA supported legislation which proposed revenue debentures as a means of funding the Cal-Vet loan program. "This plan is now being studied," Johnson commented, "and will be reintroduced next year for further consideration by the Legislature."

In the meantime, he said, Vietnam veterans will be given first consideration for Cal-Vet loans, with those who were wounded or disabled from their military service given preference.

Beachel reviewed the GI loan program of the Veterans Administration, reminding the realtors that the interest rate increase May 7, 1968, to 6-3/4 per cent makes such loans more attractive to mortgage lenders.

Under the program, the VA can guaranty 60 per cent of the home loan with a maximum of \$12,500. There is no limit on the amount of the loan, but, Beachel added, "the veteran's income, financial condition, and credit standing must meet prudent lending practices."

He reminded his audience that while each veteran's terminal date for a GI loan varies, based on his active service, the maximum date for World War II veterans is July 25, 1970. For the Korean conflict, the maximum date is Jan. 31, 1975. Post-Korean veterans have until March 4, 1976.

Safety Tips For Cyclists

SAN FRANCISCO — The National Automobile Club suggests these few safety rules for all bike riders:

Don't carry riders, this is a quick way to wreck your bike, and cause injury to yourself and your passenger.

Never hitch a ride on a car or truck.

Walk across heavy traffic intersections.

Know the rules of the road, give proper arm signals, it will help keep the fenders on your bike.

Keep your bike in good condition. Place a white light on the front of your bike and a red signal on the rear.

The greatest cause of accidents is speed.

Obey all traffic signals.

Always be alert and keep your eyes and mind on the road.

Make turns from the proper lanes at all times.

Keep to the right, and groups should always ride in single file.

Always be courteous. Courtesy to others means safety to all.
